DBL 2.0:
One Platform, Three Engines

An Integrated Infrastructure Company

Concrete and steel build infrastructure. Vision, capability and ownership build what comes next.

At Dilip Buildcon Ltd, our evolution has entered a new phase. What began with the strength of execution is becoming an integrated infrastructure platform, where three distinct engines work in concert to create a more balanced and resilient business.

EPC is the execution engine. It is where our capabilities come together to design, build and deliver critical infrastructure, powered by in-house expertise, owned equipment and a presence spanning 11 sectors.

MDO is the cash flow engine. Our coal and bauxite mining contracts, extending from 25 to 55 years, transform execution capabilities into contracted operating revenues and greater earnings visibility.

InvIT is the value-unlocking engine. As assets mature, they can move from the balance sheet into investment platforms, converting infrastructure created through our execution capabilities into recurring income while releasing capital for the next wave of growth.

Together, these engines create a powerful business cycle: we build, we operate, we unlock and we reinvest. That is the essence of DBL 2.0.

One platform. Three engines. One integrated ambition: to build infrastructure that creates value well beyond the moment it is delivered.

About the Company

Beyond the Build

Over three decades, we have grown from an EPC-focused enterprise into a diversified infrastructure business spanning EPC, mine development and operations, and multiple infrastructure segments. Our portfolio covers roads, highways, bridges, tunnels, irrigation, mining, water supply, metros, airports and urban infrastructure, giving us the capabilities to participate in projects that shape essential connectivity and public infrastructure.

We are broadening our business model beyond traditional EPC through MDO operations, optical fibre cabling and the partial divestment of Road HAM assets. These initiatives support capital recycling while preserving opportunities for recurring cash flows, helping us build a more diversified and scalable platform for the next phase of growth.

Vision

To deliver the best solutions to clients, provide complete transparency to DBL stakeholders and broaden activity base by diversifying into other infrastructure disciplines so as to sustain a healthy growth rate.

Mission

To create a fair and courteous environment for clients, employees, vendors, as well as the society.

Milestones

The Road to DBL 2.0

1987
Dilip Suryavanshi, a young civil engineer started Dilip Builders as a proprietorship firm with focus on real estate construction

1994
We witnessed healthy growth in our core business over the years and expanded into the sewage treatment sector.

1996
We took our first step towards backward integration by buying our first stone crusher.

2001
We saw infrastructure as a sunrise sector and forayed into our first road construction project.

2007
We converted to a private limited company to fulfil our growing ambitions as a young company.

2009
We expanded our geographical presence by securing a project in Himachal Pradesh, a World Bank funded road project.

2010
We continued our expansion in the EPC segment, winning our first EPC project worth ₹1,081 Cr. in Gujarat and, with this, expanded into our second state.

2012
As we grew by more than 100% year on year, we decided to raise private equity to keep pace with our growth plans and raised ₹75 Cr. from Banyan Tree Capital.

2014
We expanded into the irrigation development segment, with a focus on dams, canals and water supply projects.

2015
As part of our sector expansion, we entered the mining segment, where we undertook a Government of India project.

2016
Our IPO was oversubscribed by 22 times, making it the most successful EPC issuance in almost a decade.

2017
We sold our complete portfolio of 24 road assets with an economic value of ₹10,500 Cr., making it the single largest road buyout transaction till that time.

2018
We forayed into the airport development segment

2019
We entered the tunnels and metros segments. Our revenue grew by more than 120% since we went public three years ago.

2020
We completed 14 projects worth ₹10,544 Cr., our highest completion value in a single year.

2021
We recorded our highest ever order win and largest order book.

2022
We completed 12 projects worth ₹8,160 Cr. in eight states despite several headwinds

2023
We crossed turnover of ₹10,000 Cr.

2024
We crossed a net worth of ₹5,000 Cr

2025
Our coal MDO production crossed 25 MMT of coal. We divested road HAM assets to Alpha Alternatives (AA) and ventured into the optical fibre cabling segment

2026
We have an all time high order book of ₹28830 Cr.

Business Segments

Where Our Strengths Converge

We shape our operations through three complementary business engines. Engineering, Procurement and Construction (EPC) delivers projects and builds the assets that form the foundation of our business. Mine Developer and Operator (MDO) creates value through long-duration mining contracts, while our multi-asset investment platform unlocks value from mature assets and generates recurring income. Together, these engines give us a balanced business model that combines project execution, contracted revenues and disciplined capital recycling.

MDO

Long term cash flow engine

Transform project-based contracts into long-term cash flows

- Coal and Bauxite MDO contracts with secured tenure of 25 to 55 years
- Volume linked revenue model with strong earnings visibility and sustainable margins
- Consistent and predictable cash flows

EPC

Execution engine

Capability backbone that supports our diversified business model

- Proven in-house EPC capabilities across 11 sectors, supporting scale, efficiency and timely delivery
- Pan India presence across 20 states and 1 Union Territory
- Provides the foundation for other businesses, including MDO and InvITs

Multi asset platform

Value unlocking engine

Convert mature assets into long term, income generating financial assets

- Monetisation of operational assets
- Enable capital recycling and deleveraging
- Generates recurring distribution income
- Supports ROIC improvement and shareholder returns

Engineering Procurement Construction Business

Our EPC vertical spans roads, irrigation, tunnels, metros, water supply, urban development, renewable energy, power transmission and optical fibre cabling. We execute projects through the full design, procurement and construction cycle, drawing extensively on our in-house teams and equipment to strengthen execution control and delivery capability.

In FY26, we completed five projects with a combined value of ₹2,812 Cr. and secured 13 new projects worth ₹18,548 Cr. The new wins comprised two HAM projects and 11 EPC projects, strengthening our order pipeline and broadening the mix of projects within the portfolio.

Business Segments

Mine Developer and Operator

Our Mine Developer and Operator business gives us a contracted operating platform through agreements with Punjab State Power Corporation Limited, Mahanadi Coalfields Limited and National Aluminium Company Limited, with contract tenures ranging from 25 to 55 years. The business covers coal and bauxite mining, providing contracted revenue visibility over the tenure of these agreements.

Our operating portfolio includes the Siarmal and Pachhwara coal mines. During FY26, coal production from these two mines reached 28.72 million metric tonnes, meeting the annual production target. The MDO portfolio is expected to play an increasing role in our business mix, with long duration mining assets providing a larger contribution to profitability over the coming years.

Investments

In November 2023, we entered into a strategic partnership with Alpha Alternatives Fund Advisors to support the construction, financing and monetisation of our Hybrid Annuity Model (HAM) Road assets. The arrangement comprised three components: the transfer of stakes in completed HAM projects to Alpha, the phased transfer of corresponding stakes in projects under construction upon achieving commercial operation and Alpha's subscription to equity warrants in our parent company.

By March 2025, we had filed the draft offer document with the Securities and Exchange Board of India (SEBI) to establish a publicly listed infrastructure investment trust.

Scaling the InvIT Platform

The listing of Anantam Highways Trust (InvIT) marked an important milestone in our asset monetisation journey. Through our InvIT platform, we are recycling capital from operational assets into new growth opportunities while building a source of recurring distribution income.

As of FY26, we held InvIT units valued at nearly ₹1,600 Crore, providing visibility on future cash flows and supporting our balance sheet deleveraging plans. With additional HAM assets planned for phased transfer, we continue to unlock value from our asset portfolio while creating capacity for future growth.

Expanding into New Asset Classes

Renewable energy and power transmission are two newer asset classes we are developing within our platform, building on capabilities already established through our EPC order book. Both offer contracted revenue visibility beyond the construction phase, creating opportunities to build assets with enduring cash flow potential.

Our two solar projects have a combined contracted value of ₹25,700 crore under 25-year power purchase agreements, while the Mekhali transmission project carries contracted value of ₹11,600 crore over a 35-year operating period. Together, these projects broaden our asset base and add greater visibility to future revenue streams.

DBL 2.0: One Platform, Multiple Engines — An Integrated Infrastructure Company

FY26 reaffirmed that sustainable growth is built on strong execution, diversified businesses and disciplined capital allocation. As we strengthened each of these pillars during the year, we laid the foundation for a more resilient enterprise capable of creating long-term value across economic cycles.

Dilip Suryavanshi
Chairman and Managing Director

Dear Shareholders,

FY 2025-26 marked a defining year for Dilip Buildcon. The Company moved decisively beyond its transitional phase and established a clear new identity as an integrated infrastructure platform. Captured in this year's theme "One Platform, Multiple Engines," this identity reflects a deliberate restructuring of how Dilip Buildcon creates value from a company whose fortunes were once shaped predominantly by the pace of road EPC awards, to one that generates predictable cash flows across execution, resource development and long-duration assets.

A Company Rebuilt for Decades Ahead

When we first articulated DBL 2.0, our ambition was not merely to diversify, but to fortify. We set out to fundamentally reshape Dilip Buildcon into a business that could deliver sustainable growth, greater resilience and superior capital efficiency across economic cycles. Our priorities were clear- to strengthen the balance sheet, increase the contribution of long-duration revenue streams and create a business model capable of generating predictable earnings while preserving the execution excellence that has been the foundation of our success.

Our core EPC business continues to serve as our execution foundation, driving high-quality delivery across key infrastructure sectors. Alongside it, our Mine Developer & Operator (MDO) operations act as a steady, long-term cash flow anchor, supported by multi-decade contracts that bring strong earnings predictability. Complementing this model, our Multi-Asset Platform unlocks ongoing value from mature assets through thoughtful capital recycling, monetization, and recurring distributions. Together, these engines have shaped Dilip Buildcon into a more balanced, capital-efficient, and resilient enterprise built to create lasting value for our shareholders

During FY26, consolidated coal production reached 28.72 million tonnes comprising 22.35 million tonnes from Siarmal and 6.37 million tonnes from Pachhwara underscoring the operational scale and execution rigor we bring to resource development.

The Execution Engine: Engineering, Procurement and Construction

Our EPC engine remains the operating heart of the Company. It is the vehicle through which we deploy our in-house design and engineering teams, our standardised owned equipment fleet of 10,275 units, and our backward integration. Through FY26, we maintained strict bidding discipline, protecting our margins even as the market faced short-term distortions from undercapitalized players. Total order inflows for the year reached Rs18,548 Crore, the highest in the Company's history, and our order book at year end stood at Rs. 28,830 Crore, which is well diversified.

The order book is well spread across our multi-vertical infrastructure platform, with Mining contributing Rs. 5,832 Crore (20%), Roads and Highways Rs. 5,425 Crore (19%), Renewable Energy Rs. 5,179 Crore (18%), Irrigation Rs. 4,651 Crore (16%), Power Transmission Rs. 1,850 Crore (6%), Tunnels Rs. 1,689 Crore (6%), Special Bridges and Urban Development Rs. 1,646 Crore (6%), Metro and Railways Rs. 1,275 Crore (4%), Optical Fibre Rs. 788 Crore (3%), Water Supply Rs. 371 Crore (1%) and Petroleum, Gas and other segments contributing the balance.

The Cash Generating Engine: Mine Developer and Operator

Our Mining business is the vital engine of DBL 2.0, transforming Dilip Buildcon from a pure infrastructure developer into a long-term operator of strategic assets. During FY26, consolidated coal production reached 28.72 million tonnes comprising 22.35 million tonnes from Siarmal and 6.37 million tonnes from Pachhwara underscoring the operational scale and execution rigor we bring to resource development. With production targeted to expand to approximately 57 million tonnes by FY29, Mining is set to become an increasingly powerful anchor for our consolidated cash flows.

The Value Unlocking Engine: The Multi Asset Platform

The Multi Asset Platform represents the final pillar of DBL 2.0 and reflects our belief that we should not only build assets but also unlock their long-term value. FY2025-26 marked a defining milestone in this journey with the successful listing of Anantam Highways InvIT. Today, our investments in Anantam Highways and Shrem InvIT are creating a growing base of recurring distributions while supporting our deleveraging strategy unlocking value from our mature infrastructure portfolio. Importantly, the philosophy at the core of this platform extends well beyond roads, as we are expanding into solar, transmission and water infrastructure, applying the same disciplined, capital-light approach to build long-duration asset platforms.

Financial Strength in a Favourable Long-Term Environment

The transformation of our business has been accompanied by an equally disciplined approach to capital allocation and financial management. For FY2025-26, the Company delivered a strong financial performance. On a consolidated basis, revenue stood at Rs 8,984 crore, EBITDA at Rs1,766 crore with an EBITDA margin of 19.66%, while Profit After Tax increased by approximately 66% to Rs 1,398 crore. Standalone revenue was Rs7,005 crore, with EBITDA of Rs734 crore and Profit After Tax of Rs. 842 crore. At year-end, consolidated net debt stood at approximately Rs. 7,244 crore, while standalone net debt reduced to approximately Rs. 1,889 crore. Alongside this, our investments in Anantam Highways and Shrem InvIT, valued at nearly Rs. 1,600 crore, further strengthen our financial flexibility and reinforce our commitment to achieving a near net-debt-free standalone position by FY2027-28.

> For FY2025-26, the Company delivered a strong financial performance. On a consolidated basis, revenue stood at Rs 8,984 crore, EBITDA at Rs1,766 crore with an EBITDA margin of 19.66%, while Profit After Tax increased by approximately 66% to Rs 1,398 crore.

Project Execution and Delivery

We successfully completed 5 projects worth Rs. 3,424 crores during the year. Alongside this, we secured 13 new project wins aggregating Rs. 18,548 crores (excluding GST), our highest ever annual order intake, spanning HAM, EPC, MDO, Renewable Energy and Power Transmission segments across 8 states.

- Rs. 4,900 crore Feeder Solarization solar mandate under PM KUSUM-C in Madhya Pradesh, our largest ever Renewable Energy order
- Rs. 2,034 crore Bandh Baretha Hybrid Annuity water project in Rajasthan and ₹1,850 crore 400 kV sub-station and transmission project in Karnataka, marking our maiden entries into Water Hybrid Annuity and Power Transmission respectively
- Rs. 1,750 crore Pottangi Bauxite Mines MDO contract in Odisha with Overland Conveyor Corridor, extending our mining franchise beyond coal

We are equally encouraged by the environment in which we operate. India continues to be the world's fastest-growing major economy, supported by sustained public investment in infrastructure and a long-term policy commitment to nation building. The Union Budget's record Rs 12.22 lakh crore capital outlay, complemented by a robust public-private partnership pipeline, reinforces our confidence that infrastructure will remain one of the country's most enduring growth drivers. While near-term geopolitical developments created temporary volatility in commodity prices during the year, they have done little to alter India's long-term infrastructure trajectory. With a diversified platform spanning EPC, Mining and infrastructure assets, Dilip Buildcon is well positioned to participate meaningfully in that build.

Sustainability and Governance

As we build infrastructure that shapes India's future, we remain equally committed to building it responsibly. Sustainability is embedded in the way we execute our projects and make long-term decisions. During the year, we continued to strengthen this commitment through our Geo Green initiative, renewable energy initiatives including rooftop solar installations at our Bhopal and Indore facilities, responsible resource management, and programmes that promote road safety and community well-being across our areas of operation. Equally fundamental to our success is a culture of strong governance. Integrity, transparency and accountability have guided Dilip Buildcon since its inception and continue to define the way we conduct our business. As we build for the future, we remain committed to creating long-term value while preserving the confidence of our shareholders, customers, lenders, partners, employees and the communities we serve.

Looking Ahead: Building a Viksit Bharat, Together

As we look to FY2026-27 and beyond, I am confident that the foundations we have built will continue to strengthen with time. As India advances towards its vision of becoming a developed nation by 2047, we believe Dilip Buildcon is well positioned to contribute meaningfully to that journey while creating lasting value for all our stakeholders.

I extend my sincere gratitude to our employees, our workforce of 20,581 committed professionals continued to serve as the operating foundation of the Company through FY 2025-26, deployed across corporate offices, project sites and central manufacturing facilities, whose dedication and commitment continue to define our organisation; to our alliance partner, Alpha Alternatives; our lenders and financial partners; our valued clients and government authorities, including the Ministry of Road Transport and Highways, the National Highways Authority of India, the Airports Authority of India, Coal India Limited and its subsidiaries; and above all, to our shareholders, for the trust and confidence they continue to place in Dilip Buildcon.

As we look ahead, we remain committed to building with the same discipline, integrity and sense of purpose that have guided us since our inception.

Warm regards,

Dilip Suryavanshi

Letter from the CEO & Managing Director

India's infrastructure growth story remains firmly on course, supported by sustained public investment and structural reforms. By strengthening our execution capabilities, expanding our diversified infrastructure platform and maintaining financial discipline, Dilip Buildcon is well positioned to create long-term value through the next phase of this journey.

Devendra Jain
CEO & Managing Director

Dear Shareholders,

FY 2025-26 was a year in which Dilip Buildcon turned intent into results. The DBL 2.0 framework moved from strategy to execution across the Company. Our order book reached the highest level in our history. In October 2025, Anantam Highways Infrastructure Investment Trust was successfully listed on the stock exchanges. Our mining business continued to grow into a durable source of long-term cash flow. We achieved this while operating with financial discipline through a challenging external environment, and without losing sight of our long-term direction. Together, these outcomes leave the company better positioned than it was a year ago and laid a stronger foundation for the years ahead.

Navigating a Shifting Landscape:

The operating environment through FY 2025-26 was defined by contrasting currents. On one hand, the Government's continued commitment to infrastructure led development provided a strong policy foundation, reinforced by the record Rs12.22 Lakh Crore public capital expenditure envelope announced in the Union Budget for FY 2026-27.

On the other, execution momentum varied across segments. Road project awards remained relatively subdued for much of the year on account of land acquisition timelines, state election cycles and administrative recalibration, even as sectors such as water, metro, railways, mining and renewable energy continued to attract encouraging investment activity.

Toward the close of the fiscal year, the escalation of geopolitical tensions in West Asia led to a sharp rise in global crude prices, translating into elevated bitumen, diesel and freight costs across the construction value chain. These near-term headwinds do not alter our conviction in the sector's long term growth trajectory. Supported by sustained public investment, an expanding project pipeline and deepening asset monetisation markets, we believe the outlook for India's infrastructure sector remains compelling.

Strengthening Profitability, Evolving the Mix:

FY 2025-26 was a year in which the quality of our earnings strengthened meaningfully, even as our top line moderated by design. On a standalone basis, we reported revenue of Rs7,005 Crore, EBITDA of Rs734 Crore, and

Toward the close of the fiscal year, the escalation of geopolitical tensions in West Asia led to a sharp rise in global crude prices, translating into elevated bitumen, diesel and freight costs across the construction value chain.

Profit After Tax of Rs 842 Crore. Standalone Profit After Tax rose by approximately 2.7 times over FY 2024-25, aided by divestment linked gains recognised during the year. On a consolidated basis, revenue stood at Rs8,984 Crore, EBITDA at Rs1,766 Crore at a margin of 19.66 percent, while Profit After Tax increased by approximately 66 percent year on year to Rs1,398 Crore.

The moderation in revenue was a conscious outcome of our disciplined approach to project selection rather than a reflection of market conditions. Through the year, we remained focused on preserving threshold margins rather than pursuing volume in an environment that had, over the previous two award cycles, witnessed heightened competitive intensity. At the same time, the increasing contribution from our Coal Mine Developer and Operator business, together with gains recognised on the transfer of Hybrid Annuity Model assets to Anantam Highways InvIT, meaningfully strengthened the quality and sustainability of our consolidated earnings.

Our balance sheet continued to strengthen during the year, reflecting disciplined capital allocation and a sustained focus on deleveraging. Consolidated net debt at year end stood at approximately Rs 7,244 Crore, while standalone net debt of approximately Rs 1,889 Crore was offset by InvIT units valued at close to Rs1,600 Crore. Sustained cash generation from our operating businesses, together with the monetisation of mature assets, has enhanced financial flexibility and reaffirmed our commitment to reaching a near net debt free standalone position by FY 2027-28.

Building a Broader Growth Platform:

FY 2025-26 marked a defining year in our growth journey, with the Company achieving the highest order inflows in its history. We secured new orders worth Rs18,548 Crore, comfortably exceeding our guidance for the year, while our closing order book reached an all-time high of Rs 28,830 Crore. More importantly, the order book is now broader and more balanced than ever

None of this progress would have been possible without the people who build it. As of March 31, 2026, Dilip Buildcon's workforce stood at over 20,000 employees, supported by a wider base of skilled contractor and labour personnel across our project sites. We continued to invest in training, safety systems and on-ground supervision across our roads, mining and tunnelling operations through the year.

before, spanning roads, irrigation, water supply, tunnels, urban infrastructure, coal and bauxite mining, solar energy, transmission and water Hybrid Annuity. Supported by an active bid pipeline of approximately Rs80,000 Crore, we enter FY 2026-27 with strong revenue visibility and confidence in sustaining quality growth.

Our mining business continued to scale steadily through the year, emerging as an important long-term growth and earnings driver within our increasingly diversified infrastructure platform. Consolidated coal production reached 28.72 Million tonnes, comprising 22.35 Million tonnes at Siarmal and 6.37 Million tonnes at Pachhwara, and we remain firmly on track to reach approximately 57 Million tonnes by FY 2028-29.

Our InvIT strategy continued to progress in line with the road map outlined earlier. Following the successful listing of Anantam Highways InvIT, we currently hold units valued at approximately Rs1,400 Crore in Anantam Highways and around Rs200 Crore in Shrem InvIT, taking the total value of InvIT units on our balance sheet to nearly Rs1,600 Crore. This has created a long-term platform for predictable distributions and structured deleveraging for the Company. We remain on track to transfer the remaining HAM assets in phases, with the next tranche of 11 assets expected to require less than Rs200 Crore of incremental investment while generating InvIT units valued at around Rs1,800 Crore implying net equity value creation of Rs1,500 Crore to Rs1,600 Crore. Building on this foundation, we are well positioned to extend the InvIT platform into solar and transmission assets, further diversifying our recurring value-unlock pipeline.

None of this progress would have been possible without the people who build it. As of March 31, 2026, Dilip Buildcon's workforce stood at over 20,000 employees, supported by a wider base of skilled contractor and labour personnel across our project sites. We continued to invest in training, safety systems and on-ground supervision across our roads, mining and tunnelling operations through the year. As our project portfolio grows more complex, spanning tunnels, mining and hybrid annuity assets, we remain committed to strengthening the safety culture and technical capability of our people, who remain central to translating the DBL 2.0 strategy into results on the ground.

Positioned for the Next Cycle:

As we look ahead, we do so with confidence in the strength of the platform we have built. Over the past several years, we have transformed Dilip Buildcon into a more diversified infrastructure enterprise with multiple growth engines, a stronger balance sheet and an increasingly resilient business model. The investments we have made across our core EPC business, our mining operations and our long duration infrastructure assets position us well to participate meaningfully in the next phase of India's infrastructure growth story.

While the operating environment will continue to evolve, shaped by macroeconomic conditions, geopolitical developments and the pace of infrastructure investment, our long-term direction remains unchanged. We will continue to approach every opportunity with the discipline that has defined Dilip Buildcon throughout its journey: execution excellence, margin protection, prudent capital allocation, disciplined risk management and an unwavering focus on creating sustainable long-term value over short term optics.

I extend my sincere thanks to our employees, partners, customers and shareholders for their continued trust. The chapters ahead are ones we are well prepared to write.

Warm regards,

Devendra Jain
Managing Director and Chief Executive Officer

Dilip Buildcon Limited

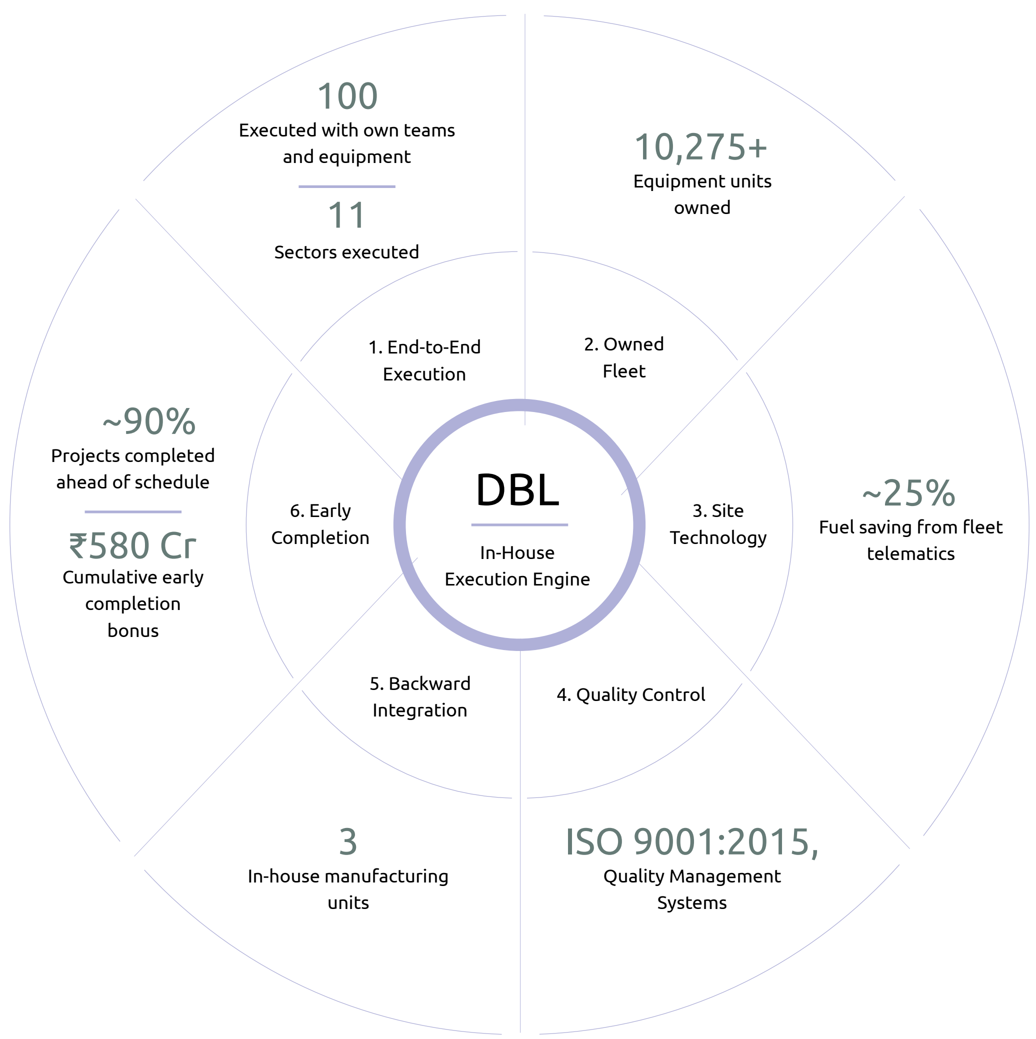
Operational Excellence

Precision. Performance. Progress.

Our approach to project execution is rooted in capabilities that give us greater control over critical stages of delivery. From design and engineering to procurement, construction, equipment deployment, material production and site monitoring, we have built in-house expertise that connects these functions and supports consistent execution across our project portfolio.

This integrated approach helps us manage quality, costs and schedules with greater precision, while drawing on the experience, equipment and resources built through our operations.

Operating in 20 states and one union territory, we bring these capabilities to projects spanning roads, mining, irrigation, tunnels, metro, bridges, renewables and transmission.



End-to-End Execution

We bring together design, engineering, procurement and construction capabilities through our own teams across 11 sectors, including roads, irrigation, mining, tunnels, metros, bridges, renewable energy and power transmission. Managing each stage in-house shortens decision cycles and gives us greater control over project costs, schedules and delivery. The same integrated model enables us to execute projects with our own teams and equipment, keeping accountability with a single team from award to completion.

100%
Executed with own teams and equipment

Owned Fleet

We operate one of the country's largest owned construction equipment fleets, spanning excavators, cranes, pavers, crushers, concrete plants and mining trucks sourced from established global manufacturers. Fleet ownership allows us to mobilise equipment quickly, support multiple sites simultaneously and manage utilisation and maintenance directly. It also reduces our dependence on external equipment hire and helps protect project schedules when industry-wide equipment demand is high.

10,275+

Backward Integration

We manufacture a range of road furniture and construction materials through our own units, including crash barriers, signage, poles, gantries, bearings, reinforced earth walls and cast components, supported by an in-house foundry. In-house production gives us greater control over material quality, cost and delivery schedules, while reducing dependence on external supply for critical project requirements.

Site Technology

We deploy drones for progress monitoring and volumetric surveys, alongside GPS, fuel telematics and digital dashboards that track site progress and resource consumption. Fleet telematics provide visibility into equipment utilisation and fuel consumption, while digital dashboards enable timely review of project performance. In mining operations, surface miners support precise extraction while reducing the need for drilling and blasting.

~25%
Fuel saving from fleet telematics

Quality Control

Quality checks are conducted throughout execution, supported by on-site laboratories that test materials and work against client specifications and applicable standards. Dedicated quality teams oversee these processes across project sites, with checks at each stage helping identify deviations early and maintain consistency in execution.

Early Completion

Timely completion is supported by our in-house execution capabilities, owned equipment fleet and site-level monitoring systems. Around 90% of our projects are completed ahead of schedule, with early completion bonuses received across several road contracts. Early delivery also enables the redeployment of equipment and project teams to subsequent assignments, supporting efficient utilisation of our resources.

Way Ahead

The Next Horizon

We are evolving from a business built around project-by-project execution into one that builds, operates and owns infrastructure assets. Our EPC business will remain the execution engine, while our mining and asset-ownership businesses generate revenue and earnings over 15 to 50-year horizons. Coal production is targeted to reach 57 million metric tonnes annually by FY29, while our standalone balance sheet is targeted to become net debt-free by FY28.

Over the same period, earnings from contracted and owned assets are expected to account for around three-fourths of profit by FY29, supported by the scaling of our MDO operations and the growing contribution from our asset investment platform. This shift is designed to create a more diversified earnings profile, with a greater share of profit coming from businesses that provide contracted visibility beyond individual project cycles.

Growth Engines

EPC

- **Margin-led, selective bidding:** Pursue growth by choosing projects with clear margin visibility, balanced risk and reward, and strong counterparties.
- **Higher mix of asset-light, high-ROIC segments:** Grow water, urban infrastructure, renewables and transmission work, which use less capital and lift return on investment.
- **A lighter standalone balance sheet:** Recycle project capital and hold to capital discipline to keep standalone debt low.
- **A more diversified EPC platform:** Widen the sector base to give steadier revenue visibility and improve capital efficiency across market cycles.

MDO

- **Ramp up production across existing mines:** Lift volumes at Siarmal and Pachhwara towards contracted capacity.
- **Unlock growth in India and overseas:** Add new mine-development mandates, widen the mineral base beyond coal.
- **Drive operating efficiencies to hold margins:** Capture operating leverage as volumes rise capture operating leverage as volumes rise towards contracted capacity.
- **Establish mining as a core earnings engine:** Grow MDO into a primary, recurring source of group profit and cash flow.

InvIT

- **Transfer matured assets into InvITs:** Move the remaining 11 road assets into Anantam Highways InvIT in phased manner with power, renewable and transmission assets to follow as they mature.
- **Increase recurring distribution income:** Hold InvIT units for predictable long-term distributions that add a stable income stream to the group.
- **Recycle capital into new growth:** Redeploy freed-up equity into fresh projects across roads, transmission, renewables and other asset classes.
- **Accelerate consolidated deleveraging:** Apply asset transfers and structured equity to bring down consolidated debt and lower financing cost.

Environment, Social and Governance (ESG)

The Principles Behind Progress

Responsible infrastructure is defined by the choices made from planning and execution through to its wider impact. At DBL, environmental, social and governance (ESG) considerations are embedded in these decisions, shaping how we manage natural resources, environmental impacts, workforce practices, community relationships and business conduct.

We bring ESG considerations into business and project activities through stakeholder engagement, performance monitoring and transparent reporting. In the communities where we operate, we seek to balance project requirements with local needs while taking responsibility for the environmental and social outcomes of our activities.

Environment

Where Growth Meets Responsibility

Our infrastructure projects depend on land, water, materials and energy throughout construction and operations. We manage their environmental footprint through resource efficiency, emissions control, responsible material use, water conservation, waste recovery and measures to protect biodiversity, with practices tailored to the conditions of each location and project.

By integrating environmental considerations into day-to-day execution, we can manage resource use and environmental impacts more deliberately while responding to the specific requirements of each site and activity.

Energy Management

Energy consumption across our operations is primarily associated with construction equipment, machinery, plants and site facilities. We manage fuel use through fuel-efficient equipment and fleet sensors that provide visibility into consumption patterns. Our renewable energy activities include over 1,363 MW of grid-connected solar capacity under EPC execution and a 100 MW captive solar project under development. These measures support closer monitoring of energy use and greater efficiency across project operations.

Our corporate office in Bhopal is built to Indian Green Building Council parameters, with an energy simulation model used to manage lighting, HVAC and electrical loads within green-building benchmarks.

Emission Reduction

Our emissions arise primarily from fuel used in mobile equipment and vehicles and from purchased electricity. We manage fuel consumption through fleet-level monitoring, while material selection includes the use of recovered and lower-carbon inputs such as pond ash in embankment construction and supplementary cementitious materials in concrete. We also monitor sulphur oxides, nitrogen oxides and particulate matter at our sites against prescribed limits. Together, these measures address emissions across fuel use, electricity consumption and selected construction materials.

Environment

Water Management

Water is used across activities such as concrete production, curing, dust suppression and earthworks, with requirements varying by project location and stage of execution. We monitor consumption at site level, treat wastewater through on-site plants and reuse treated water where applicable. At our mining operations, treated water is retained within the site through a zero-discharge approach. These practices support efficient water use and greater reuse across project activities.

Waste Management

Construction generates a range of waste streams, including excavated earth, steel scrap, packaging and hazardous residues. We segregate waste at the point of generation, route it through authorised vendors under our ISO 14001:2015 environmental management system and manage hazardous waste in accordance with applicable requirements. Recoverable materials are directed towards reuse and recycling, with steel scrap processed for use in new components and recovered plastic used in road surfacing. This approach increases material recovery and directs waste towards appropriate disposal routes.

Biodiversity Preservation

Our roads and other linear infrastructure projects intersect varied landscapes, including forests, rivers and agricultural areas. Along project corridors, we undertake plantation to restore and stabilise disturbed areas, while using manufactured sand where suitable to reduce dependence on river sand. These measures help us account for local environmental conditions in project planning and execution, enabling us to minimise disturbance while delivering infrastructure across varied terrains.

Case Study

Wildlife-Friendly Highway Infrastructure

The Seoni-Nagpur corridor of NH-44, passing through the Pench Tiger Reserve, features India's first light- and sound-proof elevated highway corridor, with elevated sections, underpasses and wildlife crossings designed to facilitate safe animal movement. Specially designed noise-absorbing walls and glare-reducing barriers minimise disturbance to the surrounding forest while maintaining highway connectivity.

Progress Beyond Projects

Our projects bring together diverse teams across locations, placing people, safety and community relationships at the core of how we deliver infrastructure. We focus on building the capabilities required for project execution, providing safe and supportive working conditions and addressing community needs through targeted CSR programmes.

Our approach is guided by formal policies and systems covering workforce practices, occupational health and safety, employee wellbeing and community engagement, helping us create responsible workplaces and build constructive relationships with the communities connected to our operations.

Workforce and Inclusion

Our dispersed project operations require people with diverse skills and responsibilities across locations. We recruit on fair and transparent terms, provide role-specific development opportunities and identify employees for progression into positions of greater responsibility. Employee engagement and recognition initiatives, together with programmes that support women's professional development, help create an environment where people can strengthen their capabilities, pursue new opportunities and build careers within the organisation.

Training and Development

Our workforce spans diverse roles and project locations, each with distinct capability requirements at different stages of construction. We provide employees and contract staff with role-relevant training in technical skills, site safety, ethics and conduct and behavioural competencies, supported by structured induction for new entrants.

Regular learning programmes help our people understand the procedures, standards and regulatory requirements relevant to their responsibilities and work environments, strengthening their readiness to perform safely and effectively.

Employee Welfare

Our employee welfare programmes address health, financial security and social protection for employees and their dependants. These include health and wellness programmes, financial assistance, retirement and social security benefits, alongside health camps and site-level engagement activities. The programmes provide support to employees and their families across the locations where our project workforce is based.

CSR and Community Engagement

Our CSR initiatives respond to community needs in the regions where we operate, with a focus on healthcare, education, livelihoods and safe mobility. Our programmes include preventive healthcare and health awareness, education and vocational training for underserved groups, including women, older persons and persons with disabilities. We also support road safety, sanitation and access to safe drinking water.

Road safety is a distinct area of focus, reflecting our experience as a road infrastructure developer and our responsibility towards communities and road users along the corridors we build. We deliver these programmes in partnership with local organisations and NGOs, drawing on their community knowledge and expertise to shape initiatives that address local priorities.

Community Blood Donation Camp at Siarmal

At our Siarmal coal mine in Sundargarh, Odisha, the site medical team organised a blood donation camp with the district blood bank and medical teams from the adjoining Mahanadi Coalfields operations. The camp collected around 40 units of blood for the district supply, with participation from employees across the site. The initiative extended the site's medical resources to address a wider community healthcare need.

The Principles That Guide Us

At DBL, governance shapes how we make decisions, define responsibilities and oversee our business activities. Our governance framework is anchored in integrity, accountability and transparency, supported by clearly defined policies, controls and oversight mechanisms.

These principles guide our approach to ethical conduct, regulatory compliance, risk management and stakeholder accountability, creating a clear framework for disciplined decision-making and responsible business conduct.

Key Governance Policies

- Code of Conduct for Board of Directors and Senior Management
- Policy for Director's Familiarization Programme
- Criteria of making payments to Non-Executive Directors
- Nomination and Remuneration Policy for Directors, KMP and other employees
- Policy on Orderly Succession for Appointments to the Board and Senior Management

Governance

Risk Management

We recognise that effective risk management is essential to sustaining business performance and creating long-term value. Supported by clearly defined roles and reporting mechanisms, the framework enables timely identification and evaluation of risks, effective implementation of mitigation measures and continuous oversight across all levels of the organisation.

1

Risk Identification

Identification of industry, operational and macro-economic risks that may impact business objectives.

2

Risk Assessment

Assessment of risks based on impact, likelihood and risk severity, followed by categorisation and mitigation planning.

3

Risk Monitoring

Monitoring of mitigation measures and review of risk status across identified risk areas.

4

Risk Register

Documentation of identified risks, risk ratings, mitigation plans and ownership responsibilities.

5

Review & Reporting

Periodic review and escalation of key risks through management, the Risk Management Committee, Audit Committee and the Board.

6

Re-visit Risk Categorisation

Periodic reassessment of risk categorisation based on changes in risk exposure and business conditions.

Management Discussion and Analysis

Global Economy Overview

The global economy demonstrated resilience through most of calendar year 2025 despite persistent geopolitical fragmentation, evolving trade dynamics and elevated policy uncertainty. According to the International Monetary Fund (IMF), global output expanded by approximately 3.4%, supported by resilient labour markets, moderating inflation, improving financial conditions and sustained investment in technology, artificial intelligence and digital infrastructure. While growth remained uneven across regions, advanced economies benefited from recovering domestic demand and gradually easing monetary conditions, whereas emerging market and developing economies continued to outperform, underpinned by stronger domestic consumption and public investment.

The relatively stable macroeconomic environment, however, was disrupted towards the close of FY2025-26 following the outbreak of armed conflict in West Asia in late February 2026. The escalation triggered the sharpest monthly rise in crude oil prices since the 1990 Gulf War, with Brent crude increasing from nearly US$72 per barrel to above US$115 per barrel by the end of March. Disruptions to shipping through the Strait of Hormuz, attacks on regional energy infrastructure and heightened geopolitical tensions materially increased freight costs, marine insurance premiums and supply-chain uncertainty across global markets. Although the timing of the shock limited its impact on FY2025-26 economic activity.

Global Economy Outlook

The International Monetary Fund (IMF), in its April 2026 World Economic Outlook, projects global growth to moderate to 3.1% in 2026 and 3.2% in 2027, assuming the West Asia conflict remains contained. Advanced economies are expected to grow 1.8%, while emerging market and developing economies are projected to slow to 3.9% in 2026 before recovering to 4.2% in 2027, continuing to underpin global economic growth.

The outlook is supported by resilient labour markets, easing monetary conditions and sustained investment in technology and the energy transition. However, elevated energy prices, higher freight costs and continued geopolitical uncertainty are expected to weigh on global growth and keep inflation above pre-conflict expectations through 2026 before gradually moderating. Against this backdrop, emerging markets with resilient domestic demand, prudent macroeconomic policies and sustained public investment are expected to remain relatively well positioned to absorb external shocks.

Indian Economy Overview

India reinforced its position as the world's fastest-growing major economy in FY2025-26, with real GDP expanding by 7.7% (up from 7.1% in the previous year). According to the Ministry of Statistics and Programme Implementation (MoSPI), real Gross Value Added (GVA) grew by 7.9%, while nominal GDP increased by 8.9% to ₹346.36 lakh crore, reflecting broad-based expansion across manufacturing, construction and services. The economy continued to benefit from resilient domestic demand, healthy private consumption, sustained government capital expenditure and a gradual recovery in private investment, despite heightened geopolitical uncertainty in the latter part of the fiscal year.

Macroeconomic stability remained a defining feature. Headline inflation moderated considerably from the elevated levels of the previous year, supported by easing food prices and improving supply conditions. Stable financial markets and a calibrated monetary policy strengthened business confidence and investment activity. Government-led capital formation provided a strong growth impulse through sustained investments in transport infrastructure, railways, urban development, power transmission and logistics. The construction sector remained among the fastest-growing segments, reaffirming infrastructure development as a key pillar of India's long-term growth strategy.

Indian Economy Outlook

India's medium-term outlook remains favourable, underpinned by strong macroeconomic fundamentals and the Government's continued emphasis on infrastructure-led growth. The Union Budget for FY2026-27 has budgeted total expenditure of ₹53.47 lakh crore, including a capital outlay of ₹12.22 lakh crore (3.1% of GDP), reaffirming the commitment to sustaining public investment amid an evolving global environment. The Ministry of Road Transport and Highways has been allocated approximately ₹3.10 lakh crore, continuing the strategic focus on expanding the national highway network, enhancing multimodal connectivity and improving logistics efficiency. Parallel emphasis on asset monetisation, public-private partnerships and integrated infrastructure planning is expected to broaden private-sector participation across the infrastructure ecosystem.

Near-term risks have become more pronounced following the escalation of geopolitical tensions in West Asia. Elevated crude oil prices, higher freight costs and persistent supply-side uncertainties are expected to keep input costs elevated across infrastructure and construction value chains. Reflecting these developments, the Reserve Bank of India has revised its FY2026-27 GDP growth forecast to 6.6%, while the International Monetary Fund (IMF) projects growth at 6.4%, indicating a moderation from FY2025-26 while still positioning India as the fastest-growing major economy globally. Despite these near-term challenges, resilient domestic demand, healthy government finances directed toward productive capital expenditure, and a robust multi-year infrastructure pipeline continue to provide a strong foundation for sustained growth, reinforcing a favourable long-term operating environment for the infrastructure and EPC sector.

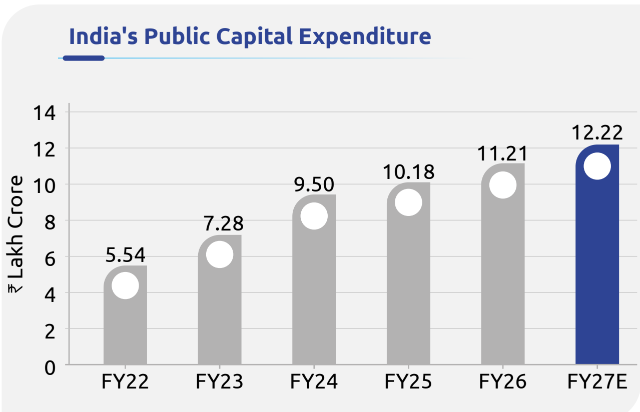
Industry Overview

Infrastructure Industry

Infrastructure continued to be the cornerstone of India's economic growth strategy during FY 2025-26, supported by sustained public investment and structural policy reforms The Government budgeted public capital expenditure of ₹11.21 Lakh Crore (3.1% of GDP) for FY 2025-26 and further strengthened its infrastructure-led growth agenda in the Union Budget FY 2026-27 by increasing capital expenditure to a record ₹12.22 Lakh Crore. Complementing this, the Ministry of Finance identified a Public-Private Partnership pipeline exceeding ₹17 Lakh Crore, reflecting a growing emphasis on mobilising private capital alongside public investment.



Beyond higher capital outlays, the policy focus evolved towards creating a more efficient and sustainable infrastructure ecosystem. Initiatives such as PM GatiShakti, the National Logistics Policy and the National Monetisation Pipeline continued to improve multimodal connectivity and logistics efficiency, while structured asset monetisation, InvITs and blended financing emerged as important funding mechanisms. Although project awarding moderated during parts of the year due to land acquisition challenges, state election cycles and administrative recalibration, these reforms are expected to foster a healthier and more competitive road EPC ecosystem over the medium term.

Roadways

India's road sector continued to anchor the country's infrastructure development agenda during FY 2025-26, supported by sustained public investment and continued focus on improving national connectivity. During the year, the National Highways Authority of India (NHAI) constructed 5,313 km of national highways, exceeding its annual target of 4,640 km by nearly 15 percent, while capital expenditure reached ₹2.44 Lakh Crore, approximately 2.5 percent higher than the Government's budgetary support, with the incremental funding met through NHAI's own resources.

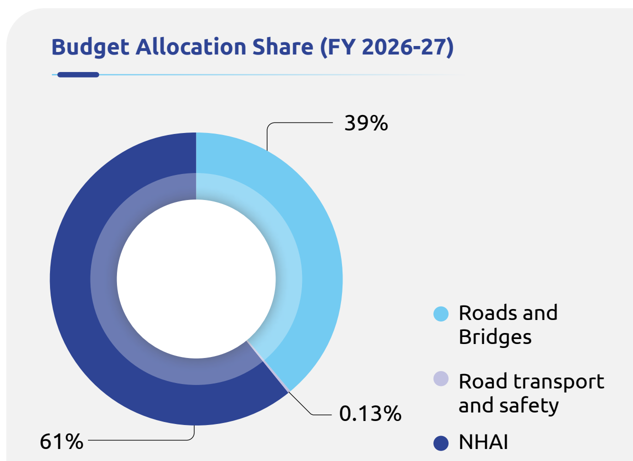
Chart 3: Distribution of Allocated Fund under the Ministry of Roads and Highways in Budget 2026-27



Source: Union Budget 2026-27, GoI.

The Government continued to reinforce the sector's long-term growth trajectory through the Union Budget FY 2026-27, allocating ₹3.10 Lakh Crore to the Ministry of Road Transport and Highways, including ₹1.22 Lakh Crore for roads and bridges. India's National Highway network has now expanded to over 1.46 Lakh km, representing an increase of nearly 61 percent over the past decade, reflecting sustained progress in strengthening the country's transport infrastructure.

Towards the close of the fiscal year, escalating geopolitical tensions in West Asia resulted in higher crude oil prices, increasing cost pressures on key construction inputs such as bitumen and diesel. While contractual price-escalation mechanisms helped cushion the immediate impact on EPC contractors, commodity price volatility remains an important monitorable for the sector. Nevertheless, supported by continued policy emphasis, sustained public investment and a robust infrastructure pipeline, the long-term outlook for India's road sector remains favourable.

Metro

India's metro rail sector continued to strengthen its position as a key pillar of urban infrastructure during FY 2025-26. As of Mid of 2026 with the operational Metro and Regional Rapid Transit System (RRTS) network expanded to approximately 1,159 km across 26 cities, reinforcing India's position as the world's third-largest metro rail network. The sector is increasingly transitioning from rapid network creation towards capacity augmentation, multimodal integration and regional connectivity, reflecting the growing maturity of India's urban transit ecosystem.

Government support for urban mass transit remained robust. Under the Union Budget FY 2026-27, the Mass Rapid Transit System (MRTS) and Metro Project scheme MoHUA's largest was allocated ₹28,796 Crore in the Budget Estimates, continuing from an allocation of ₹34,807 Crore in FY 2025-26 (BE). The Ministry of Housing and Urban Affairs later informed Parliament during the Monsoon Session 2026 that the Central Government has earmarked ₹30,942 Crore for metro rail projects for FY 2026-27, reaffirming continued investment in urban mobility infrastructure. For infrastructure players with tunnelling, viaduct construction and station development capabilities, the metro pipeline offers meaningful multi-year visibility as several corridors progress from design to award through FY 2026-27.

Railways

Indian Railways continued to accelerate its transformation during FY 2025-26 through sustained investment in network modernisation, capacity enhancement and technology-led infrastructure development. The broad-gauge network achieved 99.6 percent electrification, while passenger traffic reached a record 741 Crore, reflecting continued improvements in operational efficiency and network utilisation. The expansion of semi-high-speed rail also gathered pace, with 164 Vande Bharat and 60 Amrit Bharat Express services operational by year end, alongside the launch of the first Vande Bharat Sleeper service, marking another milestone in modernising India's passenger rail network.

The Union Budget FY 2026-27 allocated a record ₹2.93 Lakh Crore to the Ministry of Railways, reaffirming the Government's continued commitment to expanding railway infrastructure and strengthening multimodal logistics. Key priorities include the development of three new Dedicated Freight Corridors spanning over 4,300 km, accelerated rollout of the Kavach automatic train protection system, and redevelopment of more than 1,300 railway stations under the Amrit Bharat Station Scheme. These initiatives, together with continued investment in bridges, tunnels, signalling systems and high-capacity rail corridors, are expected to improve freight efficiency and support the objectives of the National Rail Plan 2030, which aims to increase rail's share of freight transportation from approximately 27 percent to 45 percent.

Airports

India's aviation sector continued to expand its operational footprint through FY 2025-26. The commissioning of Navi Mumbai International Airport in December 2025 and Noida International Airport at Jewar in mid-June 2026 established dual-airport architectures for the Mumbai Metropolitan Region and the National Capital Region. The country's operational airport count rose to 165, more than double the 74 airports operational in 2014, with over 21 additional greenfield airports at various stages of planning approval. Full-year domestic passenger traffic reached approximately 167.7 Million, and combined domestic and international throughput was tracking a mid-single-digit growth range at year end.

Airport operator revenues remained an area of strength, with the sector projected to record 18 to 20 percent revenue growth for FY26, aided by tariff revisions and rising non-aeronautical income. In March 2026, however, the outlook was revised to Negative on account of hardening aviation turbine fuel prices, disruption to certain international airspaces following the West Asia escalation, and rupee depreciation. Over the medium term, IATA projects India as the world's third largest air passenger market by 2030 and fleet size to reach 1,100 aircraft by 2027, sustaining a technically differentiated pipeline of runway, terminal and landside construction opportunities for capable infrastructure builders.

Irrigation

India's irrigation sector witnessed a distinct shift in orientation during FY 2025-26, with allocations and policy attention pivoting from headline command area creation toward efficiency-led interventions, watershed rejuvenation, and river-linking preparatory works. Under the Per Drop More Crop component of the Pradhan Mantri Krishi Sinchayee Yojana, cumulative area coverage under micro-irrigation crossed 96 Lakh hectares by year end. The PM-KUSUM initiative for solarisation of agricultural pumps has continued to scale, with more than 10 Lakh standalone solar pumps deployed nationwide.

The Ken-Betwa Link Project, the first scheme executed under the National Perspective Plan for interlinking of rivers, continued to advance through preparatory works, with a targeted annual irrigation coverage of 10.62 Lakh hectares across Bundelkhand. The Modernisation of Command Area Development and Water Management sub-scheme, launched during the year with an initial outlay of ₹1,600 Crore, will graduate into a full national programme from April 2026 in alignment with the Sixteenth Finance Commission cycle. The FY 2026-27 Union Budget allocated ₹6,587 Crore to the umbrella PMKSY programme, offering multi-year revenue visibility for contractors with dam, canal, pumping station and micro-irrigation execution capabilities.

Water Distribution Sector

The Jal Jeevan Mission crossed a defining milestone during FY 2025-26 and moved into its next phase of evolution. Functional tap water connections were extended to approximately 15.83 Crore rural households by 31 March 2026, taking national coverage to close to 81.6 percent of the addressable universe of 19.36 Crore households. The Union Cabinet, in March 2026, formally extended and enlarged the mission as Jal Jeevan Mission 2.0, raising the total programme outlay to ₹8.69 Lakh Crore including an additional central share of ₹1.51 Lakh Crore, with the extended timeline running through December 2028.

The enlarged programme places a stronger emphasis on water quality assurance, non-revenue water reduction, source sustainability and utility-grade service delivery, signalling the transition from a household connection sprint into a structured service architecture. The residual pipeline, particularly across the eight states still below the 80 percent coverage mark, together with continued urban water investments under AMRUT 2.0 (₹66,750 Crore outlay across 500 cities), represents a durable multi-year opportunity for players with expertise in trunk pipelines, water treatment plants, storage systems and district-level distribution networks.

InvIT

Infrastructure Investment Trusts have transitioned during FY 2025-26 from an alternative funding channel into a foundational component of India's infrastructure financing architecture. Combined Assets Under Management across the InvIT category stood at approximately ₹6.3 Lakh Crore in 2025 and are projected by industry participants to expand to approximately ₹21 Lakh Crore by FY 2029-30, implying a CAGR of the order of 27 percent. Road InvITs, a segment in which the Company is now an active participant through Anantam Highways, are among the fastest-growing sub-segments.

SEBI's regulatory refinements during the year further deepened institutional participation. In November 2025, SEBI reclassified listed REITs as equity for mutual fund allocation purposes, while retaining InvITs within the hybrid category. Additional consultation processes were also initiated on greenfield eligibility for private InvITs and on a glide path for index inclusion of REITs. For sponsors with mature Hybrid Annuity Model portfolios, InvIT-led divestment now represents the most efficient route to a capital-light balance sheet and the recycling of equity into new construction opportunities, a framework the Company has actively utilised through the listing of Anantam Highways Infrastructure Investment Trust in October 2025.

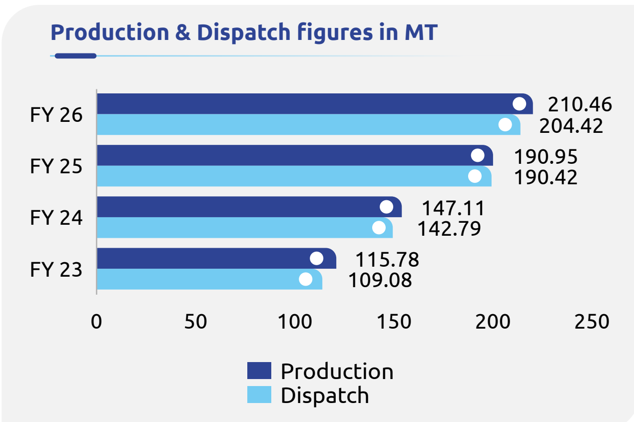
Coal Mining Industry

India's coal sector delivered a second consecutive year of record output during FY 2025-26. Aggregate domestic production sustained the 1.05 Billion tonne threshold, while production from captive and commercial mines alone reached a record 210.46 Million tonnes, up 10.22 percent year on year. Twelve captive and commercial blocks were operationalised through Mine Opening Permissions during the year, adding approximately 86 Million tonnes of annual capacity, with seven blocks commencing production within the same fiscal. Coal India Limited closed the year with production of approximately 768 Million tonnes and offtake of 745 Million tonnes.



Coal continued to account for over 55 percent of India's primary commercial energy mix and fuel more than 74 percent of thermal power generation. Policy actions through the year, notably the Revised SHAKTI Policy 2025, further reduced import dependence. Coal imports by imported-coal-based power plants declined by approximately 27 percent in April YoY comparison, and Coal India has articulated a ten year roadmap to eliminate substitutable coal imports of approximately 243 Million tonnes by 2036. Industry expectations, corroborated by CareEdge, place FY 2026-27 domestic coal production in the range of 1.15 Billion tonnes. For Mine Developer and Operator businesses with proven execution credentials, an owned equipment fleet and long-tenure relationships with public sector coal companies, the sector remains a source of durable revenue visibility and consistent cash flow.

Opportunities and Challenges

India's infrastructure sector enters FY 2026-27 supported by record public capital expenditure, a structurally healthier bidding environment and deepening asset monetisation markets. For established, well capitalised operators such as Dilip Buildcon, these tailwinds are complemented by a set of near term monitorables that continue to shape execution and returns. The primary opportunities and challenges the Company sees across the operating landscape are set out below.

Opportunities

Record Public Capex and Multi-Year Visibility

The FY 2026-27 Union Budget's ₹12.22 Lakh Crore capex envelope, coupled with the anticipated National Infrastructure Pipeline 2.0 covering FY27 to FY32, provides an unusually long runway of ordering visibility across roads, railways, water, metro, airports and mining.

Structurally Healthier Bidding Environment

MoRTH's revised prequalification framework, introduced in H1 FY 2025-26 with an assessed net worth criterion and rationalised package sizes, has moderated participation of undercapitalised bidders. The rebalanced landscape favours experienced operators with strong balance sheets.

Deepening Asset Monetisation Markets

The maturation of InvIT structures, SEBI's regulatory refinements during FY26, and expanded participation from retail and institutional investors have significantly enhanced the capital recycling options available to EPC developers with mature operational asset portfolios.

Adjacent Vertical Diversification

The scale up of mining MDO across coal and bauxite, alongside emerging opportunities in solar energy, transmission and water Hybrid Annuity, offers established players an expanding set of adjacencies in which to deploy proven capabilities and generate long duration returns.

Specialisation and Backward Integration Premium

The increasing complexity of urban tunnelling, metro, water treatment and specialised structural projects continues to favour integrated players with in house design, manufacturing, equipment ownership and specialised product capability.

Challenges

Input Cost Volatility

The sharp rise in global crude prices arising from the West Asia conflict in the closing weeks of February 2026 has translated into elevated bitumen, diesel and freight costs. Contractual escalation clauses provide partial protection; full pass through remains an execution monitorable through FY 2026-27.

Award-Pace Variability

Sector specific ordering can be uneven, reflecting policy transitions, state election cycles, land acquisition timelines and DPR readiness. FY26 illustrated this variability, with national roadway awarding lagging expectations through H1 before improving in H2 as revised norms took effect.

Working Capital Intensity

Long cycle infrastructure execution continues to demand disciplined receivable and inventory management. Certain segments such as Jal Jeevan Mission projects, with milestone payments linked to hydro testing, involve extended cash conversion timelines that require calibrated financial management.

Concentration in Government Counterparties

Reliance on Central and State Government contracts is a sector reality that exposes players to payment cycle variability and political priority shifts. Diversification across ministries, states and vertical mix remains the primary risk mitigation lever.

Geopolitical and Macroeconomic Uncertainty

External developments including the West Asia conflict, global commodity volatility and shifts in trade policy can indirectly affect input costs, financing and demand assumptions. Continuous monitoring and business mix diversification remain central to resilience.

Government Initiatives

Policy continuity across the FY 2025-26 and FY 2026-27 Budget cycles has translated into a set of programmes and frameworks that collectively shape the medium term trajectory of India's infrastructure sector. The key initiatives most relevant to the Company's operating environment are summarised below.

Initiative	Description
PM GatiShakti National Master Plan	Integrated GIS based platform coordinating multimodal connectivity across railways, roads, ports, airports and logistics, enabling faster project sequencing and real time coordination between central and state agencies.
National Infrastructure Pipeline 2.0	Anticipated multi year framework covering FY27 to FY32, expected to expand and deepen ordering visibility across core infrastructure segments and Public Private Partnership models.
Infrastructure Risk Guarantee Fund	Announced in the Union Budget 2026-27, intended to catalyse private investment by mitigating specific project stage risks and improving the bankability of PPP mandates.
Revised NHAI Qualification Framework	Assessed net worth based prequalification, enlarged package sizes and rationalised package counts introduced in H1 FY 2025-26, aimed at improving bidder quality and moderating unqualified competitive intensity.
SEBI REIT and InvIT Framework Refinements	Reclassification of listed REITs as equity for mutual fund allocation (November 2025), enhanced flexibility around asset holding and leverage, deepening institutional and retail participation in infrastructure monetisation vehicles.
National Monetisation Pipeline 2.0	Second phase targeting ₹10 Lakh Crore of asset monetisation over five years, with the road sector expected to contribute the highest share at an estimated ₹4.42 Lakh Crore, supported by expanded InvIT and TOT frameworks.
Jal Jeevan Mission 2.0	Extended until December 2028 with a total outlay of ₹8.69 Lakh Crore, pivoting from infrastructure creation toward utility grade service delivery, water quality assurance and last mile assurance.
Dedicated Freight Corridors and High Speed Rail	Three new Dedicated Freight Corridors covering over 4,300 km and seven new High Speed Rail corridors announced in the FY 2026-27 Budget, backed by a record ₹2.93 Lakh Crore railway capital outlay.
Commercial Coal Mining Reforms	100 percent FDI, ongoing block auctions and streamlined clearances continue to drive private participation, output growth and Mine Developer and Operator opportunities across coal and adjacent minerals.
Asset Monetisation Plan 2.0 for Roads	Continued NHAI monetisation of operational road assets via Toll Operate Transfer bundles and InvIT rounds, closing FY26 at approximately ₹28,307 Crore of proceeds against a ₹30,000 Crore full year target.

26. Overview of the entity's material responsible business conduct issues. Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of Risk, approach to adapt or mitigate	Financial Implications of the risk or the opportunity (Negative/ Positive)
1.	Climate Strategy	Risk and opportunity	Climate change is seen as a significant opportunity as the response to these global changes will require that the world gets ready for new and better products, with significant change in thought process.	The Company is aware of these shifts and proactively preparing itself for the changing business environment as a result of climate change. We will keep track of these opportunities as and when they arise.	Negative and positive
2.	GHG Emission and Energy Transition	Risk and opportunity	Carbon emission is considered the primary driver of global climate change. The scientific studies have proven that carbon emissions from industries strengthen the greenhouse effect, causing climate change. The construction and infrastructure industry are one of these industries.	The Company is working on a plan to reduce the emissions and align itself to the national emission reduction commitments.	Negative and positive

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of Risk, approach to adapt or mitigate	Financial Implications of the risk or the opportunity (Negative/ Positive)
3.	Resource Efficiency and Circularity	Risk	The Company is in the construction business and the disruption in operations could lead to a risk of creating an adverse material economic and operational impact. Therefore, it is crucial for the company to ensure optimizing management of resource use and in-built principle of circularity from planning and design stage of project to ensure resource efficiency.	The Company has a robust mechanism to frame and update its 'Standard Operating Procedures' with protecting the environment a key priority. The Company in planning and designing stage, incorporates principles of circularity on resource optimization and management to minimize wastage and ensure efficiency.	Negative
4.	Waste Management	Risk and opportunity	Waste management is the general practice of using less material to minimize waste generation. Waste reduction leads to conservation of natural resources and savings in costs. By recycling, reusing, and safely disposing waste, waste is diverted from landfill, minimizing negative impact on environment and human health due to un-managed waste accumulation.	The Company is committed to minimize waste to landfill and accomplish environmental and economic benefits. It potentially has both direct and indirect positive impact for the company.	Negative and positive
5.	Water and Wastewater Management	Risk and opportunity	Efficient water usage and management leads to lower costs and helps in reducing negative impact of operations on groundwater depletion and pollution in water bodies. In addition, treating wastewater at premises reduces dependency on freshwater for auxiliary water consumption processes i.e., gardening and washrooms.	The Company has a mechanism to recycle wastewater and it is processed accordingly. The Company is also committed to efficient use of water. This will help in creating a more positive image for the company in the ecosystem, given that the Company's primary water consumption comes from its Engineering, Procurement, and Construction (EPC) business.	Negative and positive
6.	Occupational Health, Safety, and Employee Well-being	Risk	In lieu of the nature of business operations, the Company's employees and workers are exposed to risks, which involve jeopardizing the health and safety. This requires that DBL makes an objective assessment of hazards/ risks that can lead to the harm, injury, death, or illness of employees at the workplace or could harm workers at sites; and develop corrective actions.	The Company has 'Zero Tolerance' for any compromise or deviation from accepted safety norms and everyone is expected to abide by them. The Company endeavors and strives to fulfill all applicable compliance requirements related to health and safety. The health and safety of our people and customers was, is and will continue to be our topmost priority.	Negative

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of Risk, approach to adapt or mitigate	Financial Implications of the risk or the opportunity (Negative/ Positive)
7.	Diversity, Equity, and Inclusion	Risk and opportunity	An organization's long-term growth and its sustainability depends on how it creates opportunities for the workforce and how it integrates them in the system. As the modern-day working environment continues to evolve, Diversity, Equity, and Inclusion (DEI) are closely linked to an important role in creating a cohesive workplace and high-performance environment. There is an inherent unconscious biasness regarding DEI, clouding mind of employees, workers, and business partners, which can be a potential risk for diversifying human resource development activities.	The Company focuses on enhancing Diversity, Equity, and Inclusion (DEI) across the organization by driving behaviour change through training and capacity building sessions. The company has internally set target to enhance gender diversity within the Company at various employment levels/ grades, as applicable year-on-year.	Negative and positive
8.	Labour and Human Rights	Risk	Owing to the business operation type, the Company engages with large number of contractors, workmen, extended workforce, and third-party business partners to meet its business obligations. This opens room for human rights risks and labour related non-compliances, leading to financial implications, increased compliance costs, and loss of brand value/ image.	The Company acknowledges this risk and has put in place policies, systems, and mechanisms to prevent non-compliance, primarily by contractors and other business partners. In case of any noncompliance, the Company has strict mechanism to investigate the matter and resolve it, within a stipulated period, in a systematic manner and corrective action is taken to avoid any such incident.	Negative
9.	Supply Chain Management	Risk	The external and internal events could lead to difficulty in sourcing and transport of materials and products leading to loss of business operations and delays. However, promoting a sustainable supply chain management is an opportunity that reduces environmental footprint, builds resilience to external shocks, supports business continuity internally, and enhances competitiveness of the Company in medium-long run.	The Company promotes sustainable supply chain management i.e., partnership with suppliers/ vendors that abide with environmental norms, comply with social obligations, and have strong governance compliances/ ethics. In addition, the Company regularly evaluates its suppliers and vendors to optimize cost effectiveness and efficient deliveries. The materials are procured from reputed manufacturers to ensure delivery timelines and competitive pricing.	Negative

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of Risk, approach to adapt or mitigate	Financial Implications of the risk or the opportunity (Negative/ Positive)
10.	Community Relations	Risk and opportunity	For business resilience and a positive and sustainable long-term engagement with the community, the Company need to work collaboratively and with a clear vision. The people directly and indirectly associated and affiliated with the Company are important stakeholders and their perspective should be an important consideration for the company in framing its policies.	The Company endeavors to track its initiatives undertaken to ensure that the community is benefited. The programs and progress are regularly reviewed and assessed by the senior management. The Company also regularly consults with the community in which it operates and incorporates its concerns and views on important issues.	Negative and positive
11.	Business Ethics and Integrity	Risk	Business ethics risks are related to lack of ethical conduct in the organization. It is one of the most important dimensions of organizational risk and could lead to both financial and operational negative impact on the organization. Hence, it is crucial that these risks are regularly identified and managed appropriately.	The Company has 'Zero Tolerance' for corruption, bribery, or any unethical practices. This is part of the Code of Conduct. This is applicable for everyone including all the directors, executives, employees, and associated persons.	Negative
12.	Regulatory Compliance	Risk	The business requires a high trust environment for its functioning and adherence to strict regulatory compliance standards is one of the basic constituents for this. In the absence of compliance and stringent adherence, there are material implications for the Company.	The company's corporate governance code is applicable to all associated with the Company. As part of accountability, transparency, and stakeholder trust building, ensuring 100% regulatory compliance is crucial and imperative. Non-compliance depreciates stakeholder trust, brand value, and adversely affects the financial standing of the Company in due course.	Negative
13.	Risk Management	Risk	The Company operates in a sector that faces regulatory compliances, clearances, restrictions, and norms, which can undergo change, as required. This means, the sector's regulatory norms are dynamic, posing potential threat of external uncertainty. In addition, the Company operates in rural and interior areas, which is prone to natural disaster leading to another layer of uncertain risk, which cannot be certainty predicted.	The Company's Risk Team has developed a comprehensive Risk Framework incorporating the actual and potential threats and risks, covering both external and internal risks. The framework is designed identifying the type of risk, likelihood, magnitude, period of impact, and proposed corrective action.	Negative

S. No.	Material Issue Identified	Indicate whether Risk or Opportunity (R/O)	Rationale for identifying the risk/ opportunity	In case of Risk, approach to adapt or mitigate	Financial Implications of the risk or the opportunity (Negative/ Positive)
14.	Economic Performance	Opportunity	As an EPC company, DBL benefits from government infrastructure projects, public-private partnerships, and increased infrastructure spending, which enhance revenue and profitability. Dependence on government contracts, fluctuating raw material costs, project delays, and financial liabilities (such as debt servicing and working capital constraints) pose significant risks to economic performance.	The Company enhances financial resilience by diversifying revenue streams, expanding into urban development and water supply projects to reduce sector dependence. It prioritizes operational efficiency through cost control and lean construction while ensuring financial risk management via hedging and optimized debt strategies, securing sustainable economic performance.	Positive

5. Specific commitments, goals, and targets set by the entity with defined timelines if any.	Dilip Buildcon Limited is committed to embedding sustainability and responsible business practices across all aspects of the business operations. The following specific commitments and targets underscore our strategic focus: **Corporate Governance:** • Cyber and Information Security: We commit to maintain zero data breaches, supported by robust IT governance systems and uphold status of ISO 27001:2022 certificate. • Ethical Conduct: We continue to maintain zero cases of corruption and anti-competitive behavior, ensuring transparency and compliance across all operations. **Occupational Health and Safety:** We are dedicated to ensuring zero harm from operations to people and the environment through rigorous safety protocols, training, and monitoring. **Social Responsibility and Diversity** • Gender Diversity: We are actively working to improve the gender diversity ratio across all levels of the organization through inclusive hiring and leadership development. **Environmental Commitments** • Energy and Emissions: Maintain current levels of energy and emissions intensity, even as operations expand. Increase the share of renewable energy in our overall energy portfolio. • Achieve Carbon Neutrality by 2050 and attain Net Zero emissions by 2060. • Water Stewardship: Implement a Water Neutrality Assessment by an external agency to evaluate water footprint to reduce dependency on groundwater as a source, aiming to lower its share in the total water profile. Lower water consumption intensity by 2030 through water-efficient technologies and process optimization. • Waste Management: Conduct external evaluations of waste generation and disposal to assess waste neutrality. Continue our leadership in sustainable materials by using manufactured sand in place of natural sand. Drive recyclability improvements in our waste management system year-on-year.								
6. Performance of the entity against the specific commitments, goals, and targets along with reasons in case the same are not met.	The Company has demonstrated strong performance in upholding its environmental sustainability and social commitment goals. By transitioning to electric shovels and drills, we have notably reduced our reliance on fossil fuels and lowered carbon emissions. The adoption of energy-efficient machinery has further minimized energy usage and greenhouse gas output. Our commitment to employee well-being is reflected in a safer, healthier workplace that encourages environmental stewardship. We have also deepened community involvement by promoting participation in environmental programs and showcasing our positive social contributions. Through proactive environmental assessments, we have achieved greater emissions reductions and advanced biodiversity conservation. Altogether, our innovative practices and adherence to NGRBC principles underscore our success in achieving sustainability objectives.

Our occupational health and safety system is certified for ISO 14001:2015 and ISO 45001:2018 standards and compliant with all relevant laws and regulations. Our OHS System are designed and developed in accordance with local regulations i.e., the Building and Other Construction Workers (BOCW) Act of 1996, the Factories Act of 1948, Indian Road Congress (IRC) guidelines, the Pollution Control Board and the guidelines provided by the Ministry of Forest and Environment. Dilip Buildcon Limited is dedicated to ensuring a safe and healthy work environment for everyone involved in, visiting, or residing near our projects. The Company's management across all levels is responsible and accountable for the occupational safety and wellbeing of our workforce. Our company employs a systematic approach to health and safety, **encompassing:** 1. EHS Policy and Planning 2. Comprehensive Planning 3. Effective Implementation and Operation 4. Rigorous Checking and Corrective Actions 5. Detailed Management Audits and Reviews 6. Ongoing Continual Improvement
b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis of the entity?	The purpose of the process of identification of hazards is to understand the occupational hazards that might arise during routine/ non-routine activities and ensure that the risks to people arising from these hazards are assessed, prioritized, and controlled to an acceptable level. As part of the process, the departmental risk assessment team is formed at the Project office. The team then identifies the main activities and divides them into sub-activities, also for both routine and non-routine activities. By understanding the workforce, plan and methodology of the activity, the team identifies the hazards, records it, and sends it to the EHS team for review. Later, following the risk assessments and assessment based on severity and probability (as per the matrix), the level of risk is determined to be high, medium, and low. Subsequently, the control measures of the risks are identified. All these details are furnished in the HIRA document, and it is periodically reviewed.
c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks? (Yes/No)	Yes, workers are strongly encouraged to report any work-related hazards during daily toolbox talks or as soon as they encounter a potential hazard at the beginning of their tasks. Prompt reporting to the designated team is crucial. This proactive approach is reinforced by the EHS department through comprehensive safety training, including awareness videos, posters, and other educational materials. Upon receiving a hazard report, the responsible team promptly implements necessary measures to address and mitigate the risk, and these actions are clearly communicated to the workers. Supervisor/ Labour contractor is a part of the EHS committee at each operational site, who is responsible for circulating the minutes of meeting to the ground force/ workmen, capacitating them on health and safety measures.
d. Do the employees/ workers of the entity have access to non-occupational medical and healthcare services? (Yes/No)	Yes, both employees and workers have access to non-occupational medical and healthcare services. Employees are covered under the company's group medical insurance policy, which provides for cashless treatment at our network hospitals nationwide. Workers are protected by a comprehensive workmen's compensation policy. Emergency helpline numbers are prominently displayed on-site to facilitate immediate access in case of incidents. In the event of an emergency, we coordinate with the HR department to arrange for prompt transportation to the nearest affiliated hospital for treatment. Additionally, we have allocated a budget for initial medical treatment at the site for injured workers. We also organize regular medical health check-up camps at our project locations to offer free health screenings to both employees and workers. Moreover, a fully equipped first-aid center is available at each project camp to address immediate medical needs.

8. Does the entity have any project related to reducing Greenhouse gas emissions?

If "Yes", then provide details.

Dilip Buildcon Limited employs a comprehensive strategy to manage its environmental footprint, with a strong emphasis on enhancing energy efficiency to mitigate environmental impacts. The Company's office building in Madhya Pradesh is certified to the highest green standards, underscoring its commitment to sustainable practices. DBL implements various initiatives including afforestation and energy conservation programs. Rigorous third-party environmental monitoring at project sites ensures pollution control, complemented by extensive awareness programs for employees and local communities.

In a significant move towards renewable energy, DBL and its subsidiaries have embarked on initiatives like installing rooftop solar systems at plants in Indore and Bhopal. These systems, generating substantial daily units of clean energy, exemplify DBL's proactive approach towards sustainable development. Furthermore, DBL is advancing its solar energy efforts nationwide, starting with the adoption of solar systems at toll plazas across India.

Moreover, DBL has introduced environmentally beneficial technologies at its Siarmal coal mines, such as the 14 cubic meter Liebherr R9200E excavator and the 5.1 cubic meter SANY SY870E electric excavator. These electric machines offer considerable environmental advantages over traditional diesel-operated equipment, notably reducing greenhouse gas emissions and improving air quality by eliminating harmful exhaust emissions. This shift underscores DBL's commitment to sustainable mining practices while achieving significant cost savings and environmental benefits.

The adoption of electric shovels and drills at Siarmal coal mines has already demonstrated substantial reductions in carbon footprint and averted 47,96,774 litres of diesel consumption respectively. These achievements not only support DBL's environmental stewardship but also underscore its commitment to sustainable business practices, contributing positively to both the environment and operational efficiencies.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Company has implemented rigorous measures to ensure effective waste identification, segregation, collection, and disposal at its project sites. Comprehensive waste management guidelines, policies, and procedures are in place, encompassing practices such as color coding and labeling of waste bins, segregation at the source, and classification based on waste properties and types. Various disposal methods are employed according to waste categories, with arrangements made with authorized vendors to ensure proper disposal and compliance with the Environment Management System (ISO 14001:2015) standards, where applicable.

For hazardous waste generated during operations, dedicated collection and storage facilities are established, labeled with detailed waste information. This hazardous waste is disposed of at regular intervals in strict adherence to regulations set forth by the Central and State Pollution Control Boards, utilizing authorized vendors. Disposal procedures strictly adhere to the Hazardous Waste Management Rules 2016 and guidelines provided by the State Pollution Control Boards.

DBL also conducts regular training and awareness programs on waste minimization and management techniques for employees and workers responsible for waste handling. Additionally, the Company ensures preparedness for emergencies by providing suitable firefighting equipment, spill kits, and drip trays for the safe handling and storage of waste materials. These initiatives underscore DBL's commitment to sustainable practices and environmental stewardship across its operations.

3. With respect to the ecologically sensitive areas reported in Qs. 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along with prevention and remediation activities.

Dilip Buildcon Limited diligently adheres to all conditions stipulated in its environmental approvals and clearances across all project sites and applicable scenarios. While the Company has not conducted studies specifically addressing the significant direct and indirect impacts on biodiversity, including prevention and remediation measures, it remains committed to enhance practices in this area to ensure comprehensive environmental stewardship.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions/ effluent discharge/ waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along with summary)	Outcome of the Initiative
1.	GPS Adoption for construction Vehicles	DBL has integrated GPS technology into its machinery to monitor machine longevity, fuel usage, and consumables. This advanced technology also offers real-time alerts and notifications for precise vehicle location and mapping. Through the utilization of GPS, DBL effectively manages driver hours and enhances operator guidance.	By combining fuel sensors with GPS in 5,876 fuel powered vehicles, we gain real-time insights into fuel consumption, machine life, and consumables, enabling us to monitor fuel usage and prevent theft.

S. No.	Initiative undertaken	Details of the initiative (Web-link, if any, may be provided along with summary)	Outcome of the Initiative
2.	Wash Sand	DBL produces construction sand in alignment with its environmental sustainability code. Over the years, DBL has decreased reliance on government-approved sand, thereby mitigating impacts on riverbanks. Concrete made with wash sand offers notable technological and commercial benefits. Natural sand has been entirely substituted in this process.	DBL has completely replaced natural sand with its wash sand, resulting in savings of approximately 776,961.52 metric tons in FY 2025-26.
3.	Solar Panels Installation	DBL is actively advancing its renewable energy portfolio. In the past year, DBL led several initiatives across multiple locations, reinforcing the Company's commitment to diminish its carbon footprint and foster sustainability. The Company and its subsidiaries have successfully deployed solar panels at various project sites nationwide.	In the fiscal year 2025-26, DBL successfully generated 8,02,663 kwh of solar power.
4.	Geo Green Initiative	DBL's Geo Green initiative aims to mitigate soil erosion alongside road construction activities. During the construction phase, significant soil displacement poses a threat to the surrounding land quality. To counteract this, DBL strategically plants trees along dividers, cultivates grass on road surfaces and enhances aesthetic appeal throughout the construction process. By prioritizing energy efficiency and minimizing environmental impact, DBL actively addresses soil erosion concerns along under-construction roads.	In FY 2025-26, we have successfully deployed this initiative across 14 project sites, spanning a total of 10,02,095 m² of land.

(f) Category I or a Category II Alternative Investment Fund (registered with SEBI as per section 115UB) as per Notification 51/2015 since their income, other than profits and gains of business and profession.

For Foreign Portfolio Investor (FPI) category Shareholders, taxes shall be deducted at source under Section 393(2) of the Income Tax Act, 2025 at 20% (plus applicable surcharge and cess) on the amount of dividend payable.

For other Non-resident Shareholders, taxes are required to be deducted in accordance with the provisions of Section 393(2) of the Income tax Act, 2025, at the rates in force. As per the relevant provisions of the Income tax Act, 2025, the tax shall be deducted at the rate of 20% (plus applicable surcharge and cess) on the amount of dividend payable to them. However, in terms of **Section 159(2)** of the Income-tax Act, 2025, a Non-resident shareholder may opt to be governed by the provisions of the applicable Double Taxation Avoidance Agreement ("DTAA"), if such provisions are more beneficial. To avail the benefit of the applicable DTAA rate, the Non-resident shareholder is required to furnish the following documents on or before the prescribed date:

1. Self-attested copy of the PAN allotted by the Indian Income Tax authorities;

2. Tax Residency Certificate (TRC) issued by the tax authorities of the country of residence, valid for the relevant Tax Year;

3. Declaration by the non-resident in prescribed form 41

4. Self-declaration by the non-resident shareholder as to:

- Eligibility to claim tax treaty benefits based on the tax residential status of the shareholder, including having regard to the Principal Purpose Test (if any), introduced in the applicable tax treaty with India;

- No Permanent Establishment/fixed base in India in accordance with the applicable tax treaty;

- The shareholder being the beneficial owner of the dividend income to be received on the equity shares.

In order to enable us to determine the appropriate tax rate at which tax has to be deducted at source under the respective provisions of the Income tax Act, 2025, we request you to upload the above-mentioned details and documents in the format as provided by the MUFG Intime India Private Limited. Kindly refer note no. 41 below for instruction and/ or on the email id eagm@dilipbuildcon.co.in by 05.00 p.m. IST on or before Tuesday, September 15, 2026.

Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction/ withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company of the documents submitted by Non-Resident shareholder.

Shareholders who are exempted from TDS provisions through any circular or notification may provide documentary evidence in relation to the same, to enable the Company in applying the appropriate TDS on Dividend payment to such shareholder.

A Resident individual member having valid PAN, subject to fulfilment of conditions specified in the Income Tax Act, 2025 can provide Form No. 121, to avail the benefit of non-deduction of tax at source. Resident shareholders may also submit such other documents/ declarations as may be prescribed under the Income-tax Act, 2025 for deduction of tax at a lower rate or for non-deduction of tax, as applicable. Quoting of PAN is mandatory for shareholders furnishing Form No. 121 or any other document/declaration for claiming the benefit of lower or nil deduction of tax at source. No tax shall be deducted on the dividend payable to a resident individual shareholder if the aggregate dividend payable during the Financial Year 2026-27 does not exceed ₹ 10,000, subject to the provisions of the Income-tax Act, 2025.

For Non-Resident members, taxes are required to be withheld in accordance with the provisions of the Income Tax Act, 2025, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess). Certain non-resident members may be eligible to avail the benefit conferred by the Double Tax Avoidance Agreement (DTAA) between India and the Country of residence of shareholder, subject to fulfilment of conditions attached thereto. Application of beneficial DTAA Rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non-Resident members. To avail beneficial rates under DTAA, the Non-Resident members will have to provide certain documents viz; Tax Residency Certificate for 2026-27 from the jurisdictional tax authorities confirming residential status, Form 41 as prescribed under Income tax rules, self-attested copy of Permanent Account Number ('PAN') card, self-declaration in the format prescribed by the Company. In order to enable the Company to determine the appropriate tax rate at which tax has to be deducted at source under the respective provisions of the Income tax Act, 2025, members are requested to upload the above mentioned details and documents in the format provided as provided by the MUFG Intime India Private Limited. Kindly refer Note no. 40 below for instruction and or on the email id eagm@dilipbuildcon.co.in by 05.00 p.m. IST on or before Tuesday, September 15, 2026.

28. **Updation of PAN, KYC and Nomination Details:** SEBI vide Master Circular No. SEBI/HO/ MIRSD/ POD-1/P/CIR/2024/37 dated May 7, 2024, has prescribed common and simplified norms for processing investor service requests by RTAs and norms for furnishing PAN, KYC (contact details, bank details and specimen signature), and nomination details. As per the said Circular, it is mandatory for the shareholders holding securities in physical form to, inter alia, furnish PAN, KYC, and nomination details. Physical folios wherein PAN, KYC details (including contact details, bank account details and specimen signature) are not updated shall be eligible for lodging grievance or availing service requests only after registration of the required details. Further, any payments including dividend in respect of such folios shall be made only through electronic mode with effect from April 1, 2024, upon registration of the required details. Accordingly, payment of dividend, subject to approval at the AGM, shall be paid to physical holders only after the above details are updated in their folios. Shareholders are requested to complete their KYC by writing to the Company's RTA, MUFG Intime India Private Limited (Formerly Link Intime India Private Limited), at investor.helpdesk@in.mpms.mufg.com.

    Further, SEBI vide Circular No. SEBI/HO/ MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024 relaxed the requirements relating to nomination and clarified that: (a) non submission of 'choice of nomination' shall not result in freezing of demat accounts or mutual fund folios; (b) securityholders holding securities in physical form shall be eligible to receive payments including dividend, interest or redemption payment and to lodge grievances or avail any service request from the RTA even if 'choice of nomination' is not submitted; and (c) payments including dividend, interest or redemption payment withheld by listed companies/RTAs solely for want of 'choice of nomination' shall be processed accordingly. However, all new investors shall continue to mandatorily provide the 'choice of nomination' for demat accounts (except for jointly held demat accounts). Shareholders holding shares in physical form who wish to register nomination, opt out of nomination, or cancel/vary an existing nomination may submit the prescribed forms to the RTA.

The forms for updation of PAN, KYC, bank details and nomination viz., Forms ISR-1, ISR-2, ISR-3, SH-13 and SH-14, along with the SEBI Circulars, are available on the Company's website at https://dilipbuildcon.com/investor-service-request/. Members holding shares in physical form are requested to submit the requisite forms along with supporting documents to the Company's RTA, MUFG Intime India Private Limited (Formerly Link Intime India Private Limited), at investor.helpdesk@in.mpms.mufg.com. at the earliest.

Further, The Company has launched the 'Saksham Niveshak 100 Days Campaign' to create awareness amongst investors and updation of KYC and nomination details and enable investors to claim their rightful entitlements. The Company has communicated the opening of this special window to the investors from time to time and the details are made available on the Company's website at www.dilipbuildcon.com.

29. Item No. 5

The Board of Directors, at its meeting held on May 14, 2026, approved the appointment of Ms. Tarishi Jain as Financial Analyst and holding an office or place of profit in the Company with effect from June 01, 2026 at a remuneration of ₹ 2,50,000/- (Rupees Two Lakh Fifty Thousand only) per month.

Ms. Tarishi Jain is the daughter of Mr. Devendra Jain, Managing Director & Chief Executive Officer of the Company and accordingly falls within the definition of "Related Party" under Section 2(76) of the Companies Act, 2013 and Regulation 2(1)(zb) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Accordingly, as per Regulation 23 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Section 188 of Companies Act, 2013, the company has taken prior approval of audit committee for said appointment and increase of remuneration.

Ms. Tarishi Jain holds a Bachelor's degree (Honours) in Economics from Lady Shri Ram College for Women, University of Delhi and a Master of Business Administration from the Indian Institute of Management Calcutta. She is also a CFA Level III Candidate. Prior to joining the Company, she worked with reputed financial institutions, including Enam Holdings, HSBC Bank PLC and Deutsche Bank, where she gained experience in investment analysis, valuation, financial modelling, due diligence and treasury operations. Her academic background and professional experience are relevant to the Company's financing, treasury and investment activities. Having considered her qualifications, experience and the responsibilities assigned to her, the Board believes that her appointment will support the Company's finance and strategic functions.

Based on the recommendation of the Audit Committee, the Board has approved the appointment and the increase of remuneration from ₹ 2,50,000/- (Rupees Two Lakh Fifty Thousand only) per month to an amount not exceeding ₹ 12,00,000/- (Rupees Twelve Lakh only) per month with effect from October 01, 2026 and recommended to the members for their approvals.

In terms of the provisions of Section 188 of the Companies Act, 2013 and Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulation, 2015, every related party transaction shall be reviewed by the Audit Committee and approved by the Board of Directors. Further, pursuant to Section 188(1) of the Companies Act, 2013 read with Rule 15 of the Companies (Meeting of Board and its Powers) Rules, 2014, a transaction with a related party shall require approval of the members by way of an ordinary resolution, if the value of such transaction exceeds the prescribed thresholds. In case of appointment of related party to any office or place of profit in the company, require such approval if the aggregate monthly remuneration exceeds Rs. 2,50,000/- (Rupees Two Lakh and Fifty Thousand only).

While recommending the proposed remuneration, the Audit Committee and the Board considered, inter alia, her qualifications, relevant professional experience, the responsibilities assigned to her and the Company's business requirements. After considering these factors, they were satisfied that the proposed remuneration is commensurate with her role, responsibilities and expected contribution to the Company.

The particulars prescribed under Rule 15 of the Companies (Meetings of Board and its Powers) Rules, 2014 are provided below:

Except Mr. Devendra Jain and their relatives, none of the Directors, Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the **Ordinary Resolution**.

The Members may note that in terms of section 188 of the Companies Act, 2013, no Related Party shall vote to approve the Ordinary Resolution set forth at Item No. 5 of the Notice, whether the entity is a Related Party to the particular transaction or not.

The Board recommends the **Ordinary Resolution** set out at **Item No. 5** of the accompanying Notice for approval by the Members.

Item No. 6 to 16

Pursuant to Section 188 of Companies Act 2013 and Regulation 23 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), prior approval of the Members by way of an Ordinary Resolution is required for all material related party transactions if the value of such transaction(s), individually or together with previous transactions during a financial year, exceeds the materiality thresholds prescribed under the SEBI Listing Regulations, even where such transactions are in the ordinary course of business and on an arm's length basis.

The amended Regulation 2(1)(zc) of the SEBI Listing Regulations has also widened the definition of "related party transaction" to include, inter alia, a transaction involving a transfer of resources, services or obligations between a listed entity or any of its subsidiaries on one hand and a related party of the listed entity or any of its subsidiaries on the other hand, regardless of whether a price is charged or not.

In terms of Section 2(87) of the Companies Act, 2013, the expression "subsidiary company" includes companies that are subsidiaries through one or more intermediary subsidiaries. Accordingly, the companies referred to in this Notice, though held indirectly through subsidiary companies, are also subsidiary companies of the Company within the meaning of Section 2(87) of the Companies Act, 2013.

Details of transaction for Item No. 6 and 7

For execution of the Projects, the step-down subsidiaries require financial support from time to time. As the ultimate parent company, DBL proposes to provide such support in the ordinary course of business by way of Investments (acquire by way of subscription, purchase or otherwise, in securities), Borrowings/ give financial assistance or Loans (whether fund / non-fund basis) and advances / provide guarantee(s) or security(s) / receive services / reimbursement of expenses / security deposit (given/taken) / Interest (received/paid) / miscellaneous Income / contract Receipts / sale / purchase of Assets / lease or disposal of assets/ sale purchase or supply of goods or services or any other similar business transactions where considered commercially necessary and to furnish undertakings, Guarantees (including corporate guarantee and performance guarantee in nature of security/ contractual commitment), surety, indemnity or comfort letter, by whatever name called, made or given by the Company, providing securities (in the form of pledge of securities held by Company) in favour of Lender(s) / security trustee, Banks, Financial Institutions NBFC, government authorities, Investors and other body corporate(s) as required for business necessity from time to time including inter-se transaction.

DBL may enter into such transactions with the step-down subsidiaries to facilitate timely financial assistance for project execution, working capital requirements and long-term sustainability of the Projects. Such support may include investment, loans, guarantees, security creation, surety, indemnity or comfort letters in favour of Lender(s) / security trustee, Banks, Financial Institutions, NBFC, Investors and other body corporate(s), enabling the subsidiaries to obtain the necessary financial assistance for execution of the Projects and fulfilment of their contractual and repayment obligations.

Details of Transaction for Item 8

Mekhali Power Transmission Limited ("MPTL") is the special purpose vehicle undertaking the transmission project and, in the ordinary course of business, the Company may be required to undertake various transactions including Investments (acquire by way of subscription, purchase or otherwise, in securities), Borrowings/ give financial assistance or Loans (whether fund / non-fund basis) and advances / provide guarantee(s) or security(s) / receive services / reimbursement of expenses / security deposit (given/taken) / Interest (received/paid) / miscellaneous Income / contract Receipts / sale / purchase of Assets / lease or disposal of assets/ sale purchase or supply of goods or services or any other similar business transactions where considered commercially necessary and to furnish undertakings, Guarantees (including corporate guarantee and performance guarantee in nature of security/contractual commitment), surety, indemnity or comfort letter, by whatever name called, made or given by the Company, providing securities (in the form pledge of securities held by the Company or otherwise) in favour of Lender(s) / security trustee, Banks, Financial Institutions NBFC, government authorities, Investors and other body corporate(s) as required for business necessity from time to time including inter-se transaction.

MPTL is presently a Wholly Owned Subsidiary of the Company. Accordingly, the transactions proposed to be entered into between the Company and MPTL are presently exempt from the approval requirements prescribed under Regulation 23(5)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Company is, however may induct one or more new investors in MPTL pursuant to the proposed investment transaction (Either directly or through its subsidiary/ies). Upon completion of the proposed investment, MPTL shall cease to be a Wholly Owned Subsidiary of the Company and consequently the exemption available under Regulation 23(5)(b) shall no longer be available to the Company.

In order to ensure continuity of project execution and avoid any interruption in business operations after the proposed induction of the investor, approval of the Members is being sought in advance for Material Related Party Transactions with MPTL up to an aggregate limit of ₹ 1,240 Crores during the Financial Year 2026-27.

Details of Transaction for Item 9 to 16

The Members of the Company had, through Postal Ballot on May 1, 2026, approved Material Related Party Transactions with its step-down subsidiaries and related party within the meaning of Regulation 2(1)(zb) of the SEBI Listing Regulations.

Subsequent to the said approval, the funding requirements of the project have been reassessed. In order to meet the additional capital requirement of the Project, the Company proposes to undertake additional investment transactions (Either directly or through its subsidiary/ies). Accordingly, it is proposed to enhance the aggregate limit of Material Related Party Transactions with step down subsidiaries.

Details of Aggregate Limits already approved and proposed to be approved are as under: -

(₹ In Cr.)

List of Subsidiary Companies	*Aggregate Limits already approved through Postal Ballot on May 1, 2026 for all RPT's	Additional Proposed Limits for investment	Revised Aggregate Limits

DBL Vidisha Solar Limited	1,255.00	67.50	1,322.50

Above limits include transactions by way investment, loans, guarantees, security creation, surety, indemnity or comfort letters in favour of Lender(s) / security trustee, Banks, Financial Institutions, NBFC, Investors and other body corporate(s).

All other approved categories of transactions and their respective limits shall remain unchanged except the addition of above proposed limits.

The proposed transactions shall continue to be undertaken in the ordinary course of business, on an arm's length basis and are in the best interests of the Company.

The aggregate value of the proposed transactions under Item Nos. 6 to 16 exceeds the applicable materiality thresholds prescribed under Regulation 23 of the SEBI Listing Regulations. Accordingly, approval of the Members is being sought to enable the Company to enter into above proposed transactions with its step-down subsidiaries in the ordinary course of business.

Further, Securities and Exchange Board of India ("SEBI") vide its circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2025/18 dated 14 February, 2025 and by further updates on circular(s) has introduced the Industry Standards on **"Minimum information to be provided for review of the audit committee and shareholders for approval of a related party transaction" ("Industry Standards")** to facilitate uniform approach and assist listed companies in complying with the provisions of Regulation 23 of the Listing Regulations.

The Audit Committee of the Company has reviewed the relevant documents and disclosures placed before it, including the information prescribed under the Industry Standards. After considering the same, the Audit Committee approved the proposed transactions and recommended them to the Board, subject to approval of the Members, noting that the transactions would be undertaken in the ordinary course of business and on an arm's length basis.

The Audit Committee reviewed the overall transactions relating to investment, loans, guarantees, security, surety, indemnity and comfort letters proposed to be provided by the Company in favour of Lender(s) / security trustee, Banks, Financial Institutions, NBFC, Investors and other body corporate(s) in connection with the Projects and transactions involving the sale, purchase or supply of goods or services and other similar business transactions, including trade advances.

While approving the transactions, the Audit Committee considered the certificates submitted by the Chief Executive

Officer and Chief Financial Officer in accordance with the Industry Standards. The Committee also concluded that the proposed transactions would not result in any benefit to the promoters at the expense of public shareholders and would be undertaken in the ordinary course of business on an arm's length basis. The proposal was thereafter placed before the Board, which approved the same.

None of the Directors, Key Managerial Personnel of the Company or any of their relatives, are concerned or interested in the above proposed resolution. However, they may be deemed to be interested financially or otherwise to the extent of their shareholding in the Company, if any.

Based on the recommendation of the Audit Committee, the Board recommends the **Ordinary Resolutions** set out at **Item Nos. 6 to 17** of the accompanying Notice for approval by the Members.

Encl: Disclosure in accordance with Industry Standards on Minimum Information to be provided to the Shareholders for Approval of Related Party Transactions (RPTs)" ("RPT Industry Standards") – Annexure-B

Item No. 17

Pursuant to the provisions of Section 179 of the Companies Act, 2013 which deals with the authority to issue securities, including debentures, whether in or outside India, Section 71 of the Act which deals with the issue of debentures read with Section 42 of the Act which deals with the offer or invitation for subscription of securities of a Company on private placement, Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Companies (Share Capital and Debentures) Rules, 2014, the Company intends to offer or invite subscriptions for secured/ unsecured redeemable non-convertible debentures, in one or more series/tranches, of an aggregate nominal value up to ₹ 1000.00 Crores (Rupees One Thousand Crores Only), on a private placement basis or otherwise.

In this regard before making an offer or invitation for subscription on a private placement basis or otherwise, the Company is required to obtain approval of its members by means of a Special Resolution. It shall be sufficient if the Company passes a Special Resolution only once in a year for all the offers or invitations for such non-convertible debentures during the year.

Considering the above, the Board of Directors at its meeting held on August 10, 2026 has proposed to obtain the consent of the members for offering or inviting subscriptions for secured/unsecured redeemable non-convertible debentures, in one or more series/tranches on private placement, issuable/ redeemable at par, as may be required by the Company, from time to time and as set out herein, for a period of 1 (one) year from the date of passing this resolution in order to augment long- term resources for financing inter-alia the ongoing capital expenditure and for general corporate purposes. The pricing of the NCDs will depend primarily upon the prevailing market conditions and the regulatory scenario.

None of the Directors or Key Managerial Personnel of the Company and their relatives are in any way concerned or interested financially or otherwise, as set out at **Item No. 18** as a **Special Resolution**.

The Board recommends as a **Special Resolution** set forth in **Item No. 18** of the accompanying Notice for the approval of the Members.

Item No. 18

Section 42 of the Companies Act, 2013, read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, prescribe the provisions subject to which a company is allowed to issue Securities on Private Placement basis. Every proposed offer of Securities or invitation to subscribe to Securities on Private Placement basis requires prior approval of Members of the Company by way of Special Resolution.

Considering the above, the Board of Directors at its meeting held on August 10, 2026, has proposed to obtain the consent of the members in order to augment the business of the Company, for borrowing, from time to time, by issuance of Commercial Papers (CPs), on Private Placement basis, upto an amount not exceeding ₹ 1000.00 Crores (Rupees One Thousand Crores Only) with or without earmarking of the Working Capital Limit. The said limit shall be within the overall borrowing limit as may be approved by the members under Section 180(1)(c) of the Companies Act, 2013.

The pricing of the CPs will depend primarily upon the prevailing market conditions and the regulatory scenario. The pricing for each of the issuance would be approved by the Board of Director.

None of the Directors or Key Managerial Personnel's of the Company and their relatives, are in any way concerned or interested financially or otherwise, as set out at **Item No. 18** as a **Special Resolution**.

The Board recommends as a **Special Resolution** set forth in **Item No. 18** of the accompanying Notice for the approval of the Member

Item No. 19

Mr. Dilip Suryavanshi (DIN: 00039944) was appointed as the Chairman & Managing Director of the Company for a period of three years with effect from August 26, 2024, in accordance with the provisions of the Companies Act, 2013.

Pursuant to Section 196(3)(a) of the Companies Act, 2013, no company shall continue the employment of a person as Managing Director, Whole-time Director or Manager who has attained the age of seventy years unless such continuation is approved by the Members by way of a Special Resolution. Mr. Dilip Suryavanshi will attain the age of seventy years during the tenure of his present term of office as Chairman & Managing Director of the Company.

Mr. Dilip Suryavanshi is the founder promoter of the Company and has been associated with it since its inception. Under his leadership, the Company has expanded its operations across roads, highways, irrigation, mining, urban infrastructure, renewable energy and other infrastructure sectors, establishing a diversified presence in the infrastructure industry.

The Board considered Mr. Dilip Suryavanshi's long association with the Company, his experience in the infrastructure sector and his role in the execution of the Company's business strategy. Considering the scale of the Company's operations and the ongoing projects under implementation, the Board believes that his continued leadership during the balance period of his existing tenure would support continuity in management and execution.

Considering his rich experience, proven leadership and valuable contribution to the growth and performance of the Company, the Nomination and Remuneration Committee and the Board of Directors, at their respective meetings held on May 13, 2026 and May 14, 2026, recommended and approved, subject to approval of the Members, the continuation of holding office by Mr. Dilip Suryavanshi as Chairman & Managing Director of the Company after attaining the age of seventy years and up to the expiry of his current term of appointment.

The terms and conditions of his appointment, including remuneration, shall remain unchanged.

Except Mr. Dilip Suryavanshi and his relatives, to the extent of their shareholding interest, if any, none of the Directors, Key Managerial Personnel of the Company or their relatives are concerned or interested, financially or otherwise, in the **Special Resolution** set out at **Item No. 19** of the accompanying Notice.

The Board recommends as a **Special Resolution** set forth in **Item No. 19** of the accompanying Notice for the approval of the Members.

Corporate Governance Report

The Corporate Governance Report has been prepared in accordance with the requirements of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended ("SEBI Listing Regulations").

At Dilip Buildcon Limited (DBL), the Board of Directors and the Management are committed to maintaining the highest standards of corporate governance, guided by the principles of integrity, transparency, accountability, fairness, and ethical business conduct. These principles form the foundation of the Company's governance framework and are embedded across all levels of decision-making, ensuring that business is conducted responsibly and in the best interests of all stakeholders, including shareholders, customers, suppliers, employees, regulators, business partners, and the communities in which the Company operates.

The Company has established a robust governance framework that promotes accountability, transparency, operational excellence, ethical conduct, and social responsibility. This framework enables effective oversight, strengthens stakeholder confidence, supports sustainable business practices, and facilitates long-term value creation through consistent and responsible growth.

The Board and Management remain committed to meeting the evolving expectations of stakeholders by fostering a culture of trust, fairness, and Ethical Corporate Conduct. As a values-driven organisation, DBL conducts its business in accordance with the core principles of good corporate governance, including integrity, equity, transparency, fairness, accountability, timely disclosures, and adherence to the highest ethical standards.

The Company is committed to ensuring full compliance with all applicable laws, regulations, and statutory requirements while continuously enhancing its governance framework in line with evolving regulatory requirements and global best practices. The Board believes that the Company's unwavering focus on ethical governance, supported by its extensive experience, technical expertise, execution capabilities, and strong market reputation, will continue to strengthen DBL's leadership position and drive sustainable long-term growth and value creation for all stakeholders.

STATEMENT ON COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

At Dilip Buildcon Limited (DBL), corporate governance is the cornerstone of our business philosophy and a key driver of sustainable value creation. Guided by the fundamental principles of integrity, transparency, accountability, fairness, and ethical business conduct, we have embedded strong governance practices across the organisation to ensure responsible decision-making and long-term stakeholder trust.

We believe that sound corporate governance extends beyond regulatory compliance. It encompasses a robust framework of policies, systems, processes, and controls that promote transparency, accountability, independence, and fairness in the management of the Company's affairs. This framework enables effective oversight, prudent risk management, responsible business conduct, and timely, accurate disclosures, while safeguarding the interests of all stakeholders.

Our governance framework is designed to balance the interests of shareholders, employees, customers, business partners, lenders, regulators, and the communities in which we operate. It fosters a culture of ethical leadership, operational excellence, and responsible corporate citizenship, ensuring that business decisions are made with integrity and in alignment with the Company's long-term strategic objectives.

The Board of Directors, supported by its Committees and the senior management team, is committed to upholding the highest standards of governance. Through clearly defined roles, robust internal controls, transparent reporting mechanisms, and effective oversight, the Company strives to enhance stakeholder confidence, strengthen organisational resilience, and deliver sustainable growth.

DBL remains committed to continuously strengthening its governance practices in line with evolving regulatory requirements, emerging global best practices, and stakeholder expectations. We recognise that corporate governance is not merely a matter of compliance but an ongoing journey of continuous improvement, innovation, and responsible value creation for all our stakeholders.

APPROPRIATE GOVERNANCE STRUCTURE WITH DEFINED ROLES AND RESPONSIBILITIES

The Company has established a robust governance framework with clearly defined roles, responsibilities, and accountability at every level of the organisation to ensure effective oversight, transparency, and sound decision-making.

The shareholders, through the General Meeting, appoint the Board of Directors, which is entrusted with the overall responsibility for the strategic direction, governance, and supervision of the Company's affairs. To facilitate focused oversight and enable effective discharge of its fiduciary responsibilities, the Board has constituted 15 (Fifteen) Committees, each operating within its defined terms of reference and in accordance with the applicable provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

The Company Secretary serves as the Secretary to all the Committees of the Board, except the Prevention of Sexual Harassment Committee, for which Ms. Pragya Raghuwanshi acts as the Secretary to the Committee. The Chairman, Managing

Director and Chief Executive Officer provide strategic leadership and overall direction to the Company and the Board. They are supported by the senior management team, which is responsible for the execution of the Company's strategic objectives, operational management, and implementation of policies approved by the Board.

In compliance with Regulations 10(1A) and 27(2) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company submits the Quarterly Integrated Filing (Governance) to the Stock Exchanges within the prescribed timelines. The filing, which includes the Corporate Governance Compliance Report and other governance-related disclosures as specified under the SEBI Listing Regulations, is duly authenticated by the Compliance Officer or the Chief Executive Officer of the Company, as applicable.

BOARD LEADERSHIP

The Board of Directors believes that effective corporate governance begins with strong, ethical, and visionary leadership. The Board is committed to fostering a culture of integrity, accountability, transparency, and responsible decision-making, while providing strategic direction to achieve the Company's long-term objectives and sustainable value creation for all stakeholders.

The Board's deliberations and decisions are guided by the best interests of the Company and are aligned with its strategic priorities, business objectives, and governance principles. To ensure effective oversight and informed decision-making, the Company has established a structured framework for the conduct of Board and Committee meetings, supported by comprehensive agendas, detailed background notes, and timely dissemination of information. This enables the Directors to engage in meaningful deliberations and make well-informed decisions.

The Board periodically reviews and evaluates the Company's strategic direction, business performance, management policies, governance practices, and their effectiveness. As part of its oversight responsibilities, the Board reviews, inter alia:

- the industry and macroeconomic environment and its impact on the Company's business;
- the Company's long-term strategy, annual operating plans, budgets, and capital allocation;
- financial and operational performance against approved plans and key performance indicators;
- major business opportunities, investments, divestments, and strategic initiatives;
- risk management framework, internal financial controls, and enterprise-wide risk mitigation measures;
- related party transactions and compliance with applicable laws, regulations, and internal policies;
- significant legal, regulatory, and compliance matters; and
- the approval of quarterly, half-yearly, and annual financial statements and results.

The Board is supported by the senior management team, whose members are invited to attend Board meetings, as appropriate, to provide operational, financial, technical, and strategic insights on matters under consideration. The Board encourages open, transparent, and constructive discussions, enabling informed decision-making and effective oversight.

Through regular engagement, robust governance processes, and strategic guidance, the Board continues to strengthen the Company's governance framework, enhance stakeholder confidence, and provide a clear roadmap for sustainable growth and long-term value creation.

ETHICS/GOVERNANCE POLICIES

We are committed to conducting our business with integrity, responsibility, and professionalism while fostering enduring relationships with all our stakeholders. M/s Piyush Bindal & Associates, Practicing Company Secretaries, has issued a certificate as required under the SEBI (LODR) Regulations, 2015, confirming that none of the directors on the board of the company have been debarred or disqualified from being appointed or continuing as directors of companies by the SEBI/ Ministry of Corporate Affairs or any such statutory authority. This certificate is enclosed with this section as **Annexure-A** of this Corporate Governance Report.

B) INDEPENDENT DIRECTORS

The Independent Directors of the Company are Non-Executive Directors and fulfil the criteria of independence prescribed under Section 149(6) of the Companies Act, 2013 ("the Act") and Regulation 16(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations").

The appointment of Independent Directors is based on the recommendation of the Nomination and Remuneration Committee ("NRC"), which evaluates the qualifications, integrity, expertise, experience, skills, positive attributes and independence of the proposed candidates in accordance with the Company's Policy on Appointment of Directors and Senior Management Personnel. The Board, after considering the recommendations of the NRC, approves the appointment of Independent Directors. Their tenure is in accordance with the provisions of the Act and the Rules made thereunder.

The Company has received the necessary declarations from all the Independent Directors confirming that they meet the criteria of independence as prescribed under Section 149(6) of the Act and Regulation 16(1)(b) of the SEBI Listing Regulations. The Independent Directors have also confirmed compliance with the provisions of Regulation 25(8) of the SEBI Listing Regulations by declaring that they are not aware of any circumstance or situation that exists or may reasonably be anticipated to impair or impact their ability to discharge their duties with objective and independent judgement.

Based on the declarations received and after undertaking the necessary assessment, the Board is of the opinion that all the Independent Directors possess the requisite integrity, expertise, experience and proficiency required to effectively discharge their duties. They satisfy the conditions specified under the Act, the SEBI Listing Regulations and the Rules framed thereunder and are independent of the Management.

All the Independent Directors have registered their names in the Independent Directors' Databank maintained by the Indian Institute of Corporate Affairs (IICA). In accordance with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014, all the Independent Directors have either successfully completed the online proficiency self-assessment test or are exempt from undertaking the same. The necessary confirmations have been received by the Company and placed before the Board.

None of the Independent Directors holds office as an Independent Director in more than seven listed entities, in compliance with Regulation 17A of the SEBI Listing Regulations.

Meetings of Independent Directors

During the financial year 2025–26, the Independent Directors met from time to time to, inter alia, review the performance of the Company's subsidiaries and familiarisation programmes. Four such meetings were held on May 8, 2025, July 28, 2025, November 13, 2025 and February 9, 2026.

During the Year a separate meeting of the Independent Directors was held on July 28, 2025, without the presence of the Non-Independent Directors and members of the Management pursuant to Schedule IV to the Act and Regulation 25(3) of the SEBI Listing Regulations. The requisite quorum was present. At the meeting, the Independent Directors, inter alia, reviewed:

- the performance of the Non-Independent Directors and the Board as a whole;
- the performance of the Chairman of the Company, taking into account the views of the Executive and Non-Executive Directors;
- the quality, quantity and timeliness of the flow of information between the Management and the Board; and
- such other matters as are required under the Act and the SEBI Listing Regulations.

Further, for the purpose of evaluating the performance of the Board, its Committees and individual Directors for the financial year 2025–26, a separate meeting of the Independent Directors was held on August 10, 2026.

Familiarization Programme for Independent Directors

In accordance with the provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure

Requirements) Regulations, 2015, the Company has a structured Familiarisation Programme for its Independent Directors to enable them to understand the Company's business, operations, industry dynamics, regulatory environment and governance framework, thereby facilitating their effective participation in the Board's deliberations.

At the time of appointment, every Independent Director is issued a formal Letter of Appointment setting out, inter alia, the terms and conditions of appointment, roles, duties, responsibilities and expectations. The terms and conditions of appointment of Independent Directors are available on the Company's website.

The Familiarisation Programme provides an overview of the Company's business model, organisational structure, strategic priorities, operational and financial performance, risk management framework, regulatory and compliance requirements, and the roles, rights and responsibilities of Independent Directors. The programme also includes periodic presentations and interactions with the senior management to familiarise the Independent Directors with key business developments, industry trends and the operating environment.

The details of the Familiarisation Programme imparted to the Independent Directors, including the disclosures required under the SEBI Listing Regulations, are available on the Company's website. The relevant web link forms part of the Corporate Policies / Weblinks section of this Annual Report.

C) CODE OF CONDUCT FOR BOARD OF DIRECTORS AND SENIOR MANAGEMENT

The Company has adopted a comprehensive Code of Conduct ("the Code") applicable to the members of the Board of Directors and the Senior Management Personnel. The Code is also applicable to the Non-Executive Directors, including Independent Directors, to the extent relevant to the discharge of their respective duties and responsibilities. The duties of the Independent Directors, as prescribed under the Companies Act, 2013, are duly incorporated in the Code.

The Code serves as a guiding framework for ethical business conduct, integrity, transparency, accountability and compliance with applicable laws, regulations and internal policies. It reflects the Company's core values and promotes the highest standards of professionalism, fairness and corporate governance in all business dealings. The Code is available on the Company's website and the relevant web link forms part of the Corporate Policies / Weblinks section of this Annual Report.

The Board of Directors, Key Managerial Personnel and Senior Management Personnel affirm compliance with the Code on an annual basis. A declaration confirming such compliance, signed by the Managing Director & Chief Executive Officer, forms part of this Corporate Governance Report.

The details of the Company's Core Management Team are provided in the relevant section of this Annual Report.

In addition, the Company Secretary places before the Board, on a quarterly basis, the disclosures received from the Directors, Key Managerial Personnel and Senior Management regarding any material financial or commercial transactions in which they may have a personal interest and which may potentially give rise to a conflict with the interests of the Company. The Board reviews such disclosures and, wherever necessary, ensures that appropriate measures are taken in accordance with the applicable legal and regulatory requirements and the Company's governance framework.

D) PERFORMANCE EVALUATION CRITERIA FOR DIRECTORS

Pursuant to the provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, the Company has in place a robust framework for the annual evaluation of the performance of the Board of Directors, its Committees, the Chairperson, Individual Directors, including Independent Directors.

The Nomination and Remuneration Committee has laid down the criteria and methodology for carrying out the annual performance evaluation. The evaluation framework covers, inter alia, the composition of the Board, effectiveness of the Board and its Committees, strategic guidance, governance practices, quality of deliberations, participation in decision-making, attendance, preparedness for meetings, domain knowledge, contribution to Board discussions, fulfilment of fiduciary responsibilities and overall effectiveness in discharging statutory and governance obligations.

In line with the Company's commitment to adopting best governance practices, the Company engaged M/s D.K. Jain & Co., Practising Company Secretaries, as an independent external facilitator to conduct a comprehensive evaluation of the performance of the Board, its Committees, the Chairperson and Individual Directors for the financial year 2025–26.

The external facilitator designed a structured evaluation framework and comprehensive questionnaires based on the applicable provisions of the Companies Act, 2013, the SEBI Listing Regulations, Secretarial Standards and recognised corporate governance practices. Separate evaluation questionnaires, as applicable, were circulated to all the Directors for assessing the performance of the Board, the Board Committees, the Chairperson and Individual Directors, including the Independent Directors.

The completed evaluation questionnaires were submitted directly to the external facilitator for independent assessment and analysis. Based on the responses received, M/s D.K. Jain & Co., Practising Company Secretaries, compiled and analysed the evaluation results and prepared a consolidated Evaluation Report highlighting the overall performance of the Board, its Committees and Individual Directors, together with observations and recommendations for further strengthening the governance framework.

The Evaluation Report was subsequently placed before the Meeting of the Independent Directors, the Nomination and Remuneration Committee and the Board of Directors held on August 10, 2026 for their consideration. The Board noted the outcome of the evaluation and expressed satisfaction with the overall effectiveness of the Board, its Committees and Individual Directors. The Board remains committed to continuously enhancing its governance practices and Board effectiveness through periodic review and implementation of the recommendations emerging from the evaluation process

As stipulated by SEBI, a qualified Practicing Company Secretary carries out Secretarial Audit to reconcile the total admitted capital with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) and the total issued and listed capital. This audit is carried out every quarter and the report there on is submitted to the Stock Exchanges where the Company's shares are listed. The audit confirms that the total listed and paid-up capital is in agreement with the aggregate of the total number of shares in dematerialized form (held with NSDL and CDSL) and total number of shares in physical form.

Means of communication to shareholders:

i. The un-audited quarterly/half yearly standalone and consolidated financial results are announced within forty-five days of the end of the quarter. The audited standalone and consolidated annual results are announced within sixty days from the closure of the financial year as per the requirement of the SEBI (LODR) Regulations, 2015.

ii. The approved financial results are forthwith sent to the Stock Exchanges where the shares of the Company are listed and are published in National English newspaper and in local language (Hindi) newspaper, within forty-eight hours of conclusion of the meeting of board of directors at which the financial results were approved thereof. The publication includes a Quick Response (QR) code and the details of the webpage where the complete financial results of the Company are accessible to investors

iii. The Company's financial results and official press releases are displayed on the Company's website www.dilipbuildcon.com

iv. Any presentation made to the institutional investors or/and analysts are also posted on the Company's website www.dilipbuildcon.com

v. Management Discussion and Analysis forms part of the Annual Report, which is sent to the shareholders of the Company.

vi. The quarterly results, shareholding pattern, Corporate Governance Report, other quarterly compliances, all the price sensitive information and all other corporate communication to the Stock Exchanges viz. BSE Limited and National Stock Exchange of India Limited are filed electronically. The Company has complied with filing submissions through BSE's -BSE Listing Centre and with NSE's -NEAPS.

vii. A separate dedicated section under "Investors", on the Company's website gives information of shareholding pattern, quarterly/half yearly results and other relevant information of interest to the investors/public.

Share transfer system:

Pursuant to the amendment in Regulation 40 of SEBI (LODR) Regulations, 2015, vide Gazette notification dated June 8, 2018, the SEBI, effective from April 1, 2019, barred physical transfer of shares of listed companies and mandated transfer only through demat. However, the investors are not barred from holding shares in physical form.

Further, in order to facilitate ease of investing for investors and to secure the rights of investors in the securities which were purchased by them, SEBI vide its circular SEBI/HO/MIRSD/MIRSD-PoD/P/CIR/2025/97 dated July 02, 2025, had opened a special window for re-lodgement of transfer deeds, which were lodged prior to the deadline of April 01, 2019 and rejected/returned/not attended to due to deficiency in the documents/process/or otherwise, for a period of six months from July 07, 2025 till January 06, 2026. Subsequently, SEBI vide its circular HO/38/13/11(2)2026-MIRSD-POD/I/3750/2026 dated January 30, 2026, has opened another special window for transfer and dematerialisation of physical securities which were sold/purchased prior to April 01, 2019, for a period of one year from February 05, 2026 till February 04, 2027. This window also covers fresh lodgement of transfer deeds that were never earlier lodged with the Company/RTA. During this period, the securities so transferred shall be credited to the transferee only in demat mode and shall be under lock-in for a period of one year from the date of registration of transfer. Due process shall be followed for such transfer-cum-demat requests.

In case of shares in electronic form, the transfers are processed by NSDL/ CDSL through respective Depository Participants. In compliance with the SEBI (LODR) Regulations, 2015, a Practicing Company Secretary carries out audit of the System of Transfer and a certificate to that effect is issued. Presently, the company has 100 outstanding shares in physical form.

Share transactions are simpler and faster in electronic form. After a confirmation of a sale/purchase transaction from the broker, shareholders should approach the depository participant with a request to debit or credit the account for the transaction. The depository participant will immediately arrange to complete the transaction by uploading the account. There is no need for a separate communication to the company to register the transfer.

All communication regarding share certificates, change of address, dividend etc. should be addressed to R & T agent i.e. **MUFG Intime India Private Limited** (Previously Link Intime India Private Limited).

Nomination:

Individual shareholders holding shares singly or jointly in physical form can nominate a person in whose name the shares shall be transferable in case of death of the registered shareholder(s). Nomination facility in respect of shares held in electronic form is also available with the Depository Participants, as per the bye-laws and business rules applicable to NSDL and CDSL.

Shareholders holding shares in physical form who wish to register a nomination, opt out of nomination, or cancel/vary an existing nomination may submit the prescribed Forms SH-13/SH-14, along with Forms ISR-1, ISR-2 and ISR-3 for updation of PAN, KYC and bank details, to the Company's Registrar and Share Transfer Agent, MUFG Intime India Private Limited (Formerly Link Intime India Private Limited), at investor.helpdesk@in.mpms.mufg.com. These forms, along with the applicable SEBI Circulars, are available on the Company's website at https://dilipbuildcon.com/investor-service-request/.

Members are requested to refer to the Notice of the ensuing Annual General Meeting for detailed requirements regarding furnishing of PAN, KYC and nomination details pursuant to SEBI Master Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/37 dated May 7, 2024, and the relaxations thereto under SEBI Circular No. SEBI/HO/MIRSD/POD-1/P/CIR/2024/81 dated June 10, 2024.

Electronic Clearing Service (ECS):

The Securities and Exchange Board of India (SEBI) has made it mandatory for all Companies to use the Bank account details furnished by the Depositories for depositing dividends. Dividend will be credited to the member's bank account through ECS wherever complete core banking details are available with the Company. The earlier practice of issuing dividend warrants, demand drafts, or other physical payment instruments has been discontinued. Shareholders are requested to ensure their bank account details, along with other mandatory KYC details (PAN, mobile number, e-mail address and specimen signature), are updated with their DP (for shares held in demat form) or with the Company's RTA (for shares held in physical form), to ensure timely and uninterrupted credit of dividend.

Standalone Financial Statements

Independent Auditor's Report

To the Members of **Dilip Buildcon Limited**

Report on the Audit of Standalone Ind AS Financial Statements

1. Opinion

We have audited the accompanying standalone Ind AS financial statements of Dilip Buildcon Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended and a summary of material accounting policies and other explanatory information (hereinafter referred to as 'standalone Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the state of affairs of the Company as at March 31, 2026, its profits and total other comprehensive income, changes in equity and its cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on standalone Ind AS financial statements.

3. Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements of the current year. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. no.	Key Audit Matter	Auditors Response
1	**Revenue recognition and accounting for Construction contracts**	
	Significant accounting judgements including estimation of costs to complete, determining the stage of completion and the timing of revenue recognition. For majority of its contracts, the Company recognizes revenue and profit/loss on the stage of completion based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion. The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract. At each reporting date, revenue is accrued for costs incurred against work performed in accordance with the contract for which invoice may not have been raised. Identification that such accrual will result into work that would be billable and recoverable when the work has not been acknowledged by the customer involves significant amount of judgement.	We performed the following audit procedures: Testing the design and implementation of internal controls including control over process for determining estimates used as evaluating whether they are operating effectively. Testing related information used in recording and disclosing revenue in accordance with the relevant accounting standard. Testing different sample of contracts for identification of performance obligations. Reviewed the Company's process of collecting information supporting the basis for accrual of costs against work performed upto the cut-off dates. Reviewed the design and operating effectiveness of management's key controls in collecting such data with respect of costs. Tested the cut-offs for revenue recognized against such un-invoiced amounts and reviewed the process of such recognition. Review for change of scope and impact of the same on estimated costs to complete the contracts Perform analytical procedures for reasonableness of revenues disclosed by type of contracts.

Sr. no.	Key Audit Matter	Auditors Response
	Revenue on contracts may also include variable consideration (variations and claims). Variable consideration is recognized when the recovery of such consideration is highly probable. The nature of these judgements results in being subject to management override.	
2	**Assessment of receivables (including unbilled receivables)**	
	Risk of material misstatement related to estimation of expected credit loss as a result of lack of precision in their measurement. The estimates depend on number of factors such as ageing, credit risks and the ability of the parties to make payment.	We performed the following audit procedures: Assessed the Company's basis for determining the model, internal controls based on which the Company determines the basis of provisioning, compliance with and consistently applying the accounting policies Verification of subsequent receipts and post balance sheet events if any.

4. Information other than the standalone Ind AS financial statements and Auditor's report thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report, Business Responsibility and Sustainability Reporting, Corporate Governance and Shareholders Information, but does not include the standalone Ind AS financial statements and our auditor's report thereon. The Other information is expected to be made available to us after the date of our auditor's report.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained during the course of audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

5. Management's responsibility for the Standalone Ind AS financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate material accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

6. Auditor's Responsibilities for the Audit of the Standalone Ind AS financial statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

i) Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

iii) Evaluate the appropriateness of material accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

iv) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Company to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

v) Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Report on Other Legal and Regulatory Requirements

i) As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ii) As required by section 143 (3) of the Act, based on our audit, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the standalone Ind AS financial statements.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for not complying with the requirement of audit trail as stated in i(vi) below.

c) The Balance Sheet, Statement of Profit and Loss including Other comprehensive income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Indian Accounting Standards specified under section 133 of the Act.

e) On the basis of written representations received from the directors of the Company as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026, from being appointed as a director in terms of section 164 (2) of the Act.

f) The modification relating to the maintenance of accounts and other matters connected therewith, is as stated in paragraph (b) above.

g) With respect to the adequacy of the internal financial controls with reference to standalone Ind AS financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report.

h) With respect to the other matters to be included in the Auditors Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid / provided by the Company to its directors during the year is in accordance with the provisions of Section 197 of the Act.

i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements to the extent determinable/ ascertainable – Refer Note 26 to the standalone Ind AS financial statements.

   ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.

   iii. There were no delays in amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year.

   iv. (a) The Management has represented that no funds have been advanced or loaned or invested other than as disclosed in Note 52b (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

   (b) The Management has represented that no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

   (c) Based on audit procedures that we have considered reasonable and appropriate in the circumstance nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under contain any material misstatement.

   v. The dividend declared and paid by the Company during the year is in compliance with provisions of Section 123 of the Companies Act, 2013.

   As stated in note 11.1 to the standalone Ind AS financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of proposed dividend is in accordance with section 123 of the Act, as applicable.

   vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2026 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that audit trail feature was not enabled at the database level for accounting software to log any direct data changes.

   Further, during the course of our audit, we did not come across any instance of the audit trail feature being tampered with, in respect of accounting software for the period for which the audit trail feature was enabled and operating. The audit trail has been preserved by the Company as per the statutory requirements for record retention.

Annexure 'A' to the Auditors' Report of even date on the standalone Ind AS financial statements of Dilip Buildcon Limited – Statement on the matters specified in paragraphs 3 and 4 of Companies (Auditor's Report) Order, 2020

Referred to in paragraph 7 (i) under Report on Other Legal and Regulatory Requirements of our report of even date

According to the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

i) a) A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and Right-of-use Assets.

B) The Company has maintained proper records showing full particulars of Intangible Assets.

b) According to the information and explanations given to us by the management and in our opinion, selective items of Property, Plant and Equipment and Right-of-use Assets have been physically verified by the management during the year and no material discrepancies were identified on such verification. However, considering the volume and nature of items of property, plant and equipment, the Company should increase the frequency of physical verification.

c) According to the information and explanations given to us by the management and in our opinion, the title deeds of immovable properties included in Property, Plant and Equipment as disclosed in the standalone Ind AS financial statements are held in the name of the Company.

d) According to the information and explanations given to us by the management and in our opinion, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets during the year.

e) According to the information and explanations given to us by the management, no proceedings have been initiated or is pending against the Company during the year for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

ii) a) According to the information and explanations given to us by the management and in our opinion, the inventory has been physically verified by the management at regular intervals. In our opinion, the frequency of verification needs to be further improved having regard to the size of the Company and nature of its business. As informed to us by the management, there was no material discrepancy in the aggregate for each class of inventory noticed on verification to the extent reconciled with the records available in this respect between the physical stocks and the book records.

b) The Company has been sanctioned working capital limits in excess of five crore rupees during the year, from banks on the basis of security of current assets. The quarterly statements were submitted to respective Banks as per the terms of the sanction letter. On comparison of the quarterly statements with the books of accounts, there were differences observed, the reconciliation of which is given in Note 12.4 of standalone Ind AS Financial statements. However, we have not carried out a specific audit of such statements.

iii) The Company has made investments in, provided guarantees and granted unsecured loans, to Companies and other parties during the year. The Company has not provided any security to any entity during the year.

a) During the year, the Company has provided loans to thirty-two subsidiary companies, eleven jointly controlled entities, twelve other related company and ten other companies and stood guarantee to loans taken by five subsidiary companies. The details are as given below:

Annexure 'B' to the Auditors' Report of even date on the standalone Ind AS financial statements of Dilip Buildcon Limited

Report on the Internal Financial Controls with reference to Standalone Ind AS Financial Statements under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013

Referred to in paragraph 7 (ii) (f) under Report on Other Legal and Regulatory Requirements of our report of even date

1. We have audited the internal financial controls with reference to Standalone Ind AS Financial Statements of Dilip Buildcon Limited ("the Company") as of March 31, 2026, in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to Standalone Ind AS Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India" (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Ind AS Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone Ind AS financial statements, and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Ind AS Financial Statements was established and maintained and if such controls operated effectively in all material respects.

   Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to Standalone Ind AS Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Ind AS Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Ind AS Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error.

   We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Ind AS Financial Statements.

Meaning of Internal Financial Controls with reference to Standalone Ind AS Financial Statements

4. A company's internal financial control with reference to Standalone Ind AS Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Standalone Ind AS Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Ind AS Financial Statements

5. Because of the inherent limitations of internal financial controls with reference to Standalone Ind AS Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Ind AS Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Ind AS Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

6. In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Standalone Ind AS Financial Statements and such internal financial controls with reference to Standalone Ind AS Financial Statements were operating effectively as at March 31, 2026, based on the internal control with reference to Standalone Ind AS Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to Standalone Ind AS Financial Statements issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements

for the year ended 31st March 2026

1. Company Overview and Material Accounting Policies and Information

1.1 Company Overview

Dilip Buildcon Limited (the 'company') is domiciled in India with its registered office at Bhopal, Madhya Pradesh, India. The Company has been incorporated under the provisions of the Companies Act, 1956.

The Company's equity shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) with effect from 11 August 2016.

The company is presently in the business of development of infrastructure facilities on Engineering Procurement and Construction basis (EPC) and undertakes contract from various Government and other parties and special purpose vehicles promoted by the Company.

1.2 Basis of Preparation of financial statements

The Company's financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended.

The financial statements of the Company for the year ended 31 March 2026 were approved for issue in accordance with the resolution of the Board of Directors on 14 May 2026.

1.3 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

1.4 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss (including other comprehensive income) and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss (including other comprehensive income), as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

1.5 Current / Non-Current classification

An asset or liability is classified as 'current' when it satisfies any of the following criteria:

(i) it is expected to be realized or settled, or is intended for sale or consumption in, the company's normal operating cycle;

(ii) it is held primarily for the purpose of being traded;

(iii) it is expected to be realized or settled within twelve months from the reporting date; or

(iv) an asset is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months from the reporting date;

(v) in case of liability, the company does not have an unconditional right to defer settlement of the liability for at least twelve months from the reporting date.

All other assets and liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with Schedule III to the Act.

Operating Cycle

Based on the nature of services provided by the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

1.6 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of material accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying material accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its material accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment (PPE)

Determination of the estimated useful lives of items of PPE and the assessment as to which components of the cost may be capitalized. Useful lives of items of PPE are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations.

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provisions

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instruments

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

1.7 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

1.8 Property, plant and equipment and Depreciation

Property, Plant and Equipment is recognized when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

Items of property, plant and equipment are measured at cost, which includes capitalised eligible borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are

Notes to the Financial Statements

for the year ended 31st March 2026

accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company. Advance given towards acquisition of Property, Plant and Equipment outstanding at the reporting date are disclosed as capital advances under Non-Current Assets.

Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognised in the statement of profit and loss. Freehold land is not depreciated.

Depreciation on additions / (disposals) is provided on a pro-rata basis i.e. from / (upto) the date on which asset is ready for use / (disposed of).

1.9 Intangible Assets and amortization

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible Asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period

Intangible assets that have finite lives are amortised over their useful lives by the straight-line method. Intangible assets with indefinite useful life are not amortised but are tested for impairment.

1.10 Investments in Subsidiaries, Associates and Joint ventures

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

1.11 Investments in Units of InvIT

Investments in Units of InvIT are measured at fair value through Other Comprehensive Income as per Ind AS 109 'Financial Instruments'. The Company has on Initial recognition, made an irrevocable election to present subsequent changes in the fair value in other comprehensive income (FVOCI) on an instrument by-instrument basis.

For equity investment classified as at FVOCI, all fair value changes on the instruments, excluding dividends and interest are recognized in the OCI. There is no recycling of the amounts from OCI to profit or Loss, even on sale of Investments. However, the Company may transfer the cumulative gain or loss within equity.

1.12 Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on first in first out basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

1.13 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Impairment losses are recognised in the statement of profit and loss. The impairment loss in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Notes to the Financial Statements

for the year ended 31st March 2026

1.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price unless those contain a significant financing component. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in two broad categories: - i] Financial assets at fair value and ii] Financial assets at amortised cost. Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss [i.e fair value through profit or loss], or recognised in other comprehensive income [i.e. fair value through other comprehensive income]. A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset is subsequently measured at FVTOCI if it is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and the contractual terms of instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

a. Financial assets that are debt instruments, and are measured at amortized cost e.g. loans, debt securities, deposits and bank balance

b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables including receivables recognized under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition

Notes to the Financial Statements

for the year ended 31st March 2026

of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

1.15 Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. Lease term includes non- cancellable period of lease together with periods covered by such options if the Company is reasonably certain to exercise the option to extend or reasonably certain not to exercise the option to terminate.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liability is subsequently measured at Amortised Cost. Lease liability is remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

1.16 Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes unless the possibility of outflow of resources embodying economic benefits is remote

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

Contingent liability is disclosed in case of:

(i) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and

(ii) a present obligation arising from past events, when no reliable estimate is possible.

Contingent assets are not recognised in financial statements, however are disclosed, where inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

1.17 Revenue recognition

Revenue from contracts with customers is recognised when a performance obligation is satisfied by transfer of promised goods or services to a customer.

For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognises revenue over a period of time if one of the following criteria is met:

(a) the customer simultaneously consumes the benefit of the Company's performance or

(b) the customer controls the asset as it is being created/ enhanced by the Company's performance or

(c) there is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents.

In all other cases, performance obligation is considered as satisfied at a point in time.

The revenue is recognised to the extent of transaction price (net of variable consideration) allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in profit or loss immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfil a contract are amortised over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Significant judgments are used in:

a. Determining the revenue to be recognised in case of performance obligation satisfied over a period of time; revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation.

b. Determining the expected losses, which are recognised in the period in which such losses become probable based on the expected total contract cost as at the reporting date.

c. Determining the method to be applied to arrive at the variable consideration requiring an adjustment to the transaction price.

(i) Revenue from Operations:

A) Revenue from construction/project related activity is recognised as follows:

(a) Cost plus contracts: Revenue from cost plus contracts is recognised over time and is determined with reference to the extent performance obligations have been satisfied. The amount of transaction price allocated to the performance obligations satisfied represents the recoverable costs incurred during the period plus the margin as agreed with the customer.

(b) Fixed price contracts: Contract revenue is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

B) Revenue from rendering of services is recognised over time as the customer receives the benefit of the Company's performance and the Company has an enforceable right to payment for services transferred.

Unbilled revenue represents value of services performed in accordance with the contract terms but not billed.

C) Other operational revenue represents income earned from the activities incidental to the business and is recognised when the performance obligation is satisfied and right to receive the income is established as per the terms of the contract.

Notes to the Financial Statements

for the year ended 31st March 2026

(ii) Other Income:

Interest income on investments and loans is accrued on a time basis by reference to the principal outstanding and the effective interest rate including interest on investments classified as fair value through profit or loss or fair value through other comprehensive income.

Dividend income is accounted in the period in which the right to receive the same is established.

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

1.18 Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

1.19 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed to have been converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period .

1.20 Statement of Cash Flow

The cash flows from operating, investing and financing activities of the Company are segregated. Cash flows from operating activities are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows.

1.21 Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds.

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. The same is not eligible to be reclassified to profit or loss. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

1.22 Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement.

The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes, i.e. the tax base. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets deferred tax assets and deferred tax liabilities, where it has a legally enforceable right to set off the deferred tax assets and deferred tax liabilities and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

1.23 Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are measured at the lower of carrying amount at designation and fair value less costs to sell.

1.24 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short-term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

Notes to the Financial Statements

for the year ended 31st March 2026

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.25 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

1. Ind AS 21: The Effects of Changes in Foreign Exchange Rates- applicable with effect from April 1, 2025.

   The amendments are pertaining to exchangeability of currency.

   The Company has reviewed the amendments and based on its evaluation has determined that it does not have any significant impact in its financial statements.

2. Ind AS 1: Presentation of Financial Statements- applicable w.e.f. April 1, 2025.

   The amendment relates to classification of liabilities as current or noncurrent and non-current liabilities with covenants. The amendments are pertaining to classifying a liability as current. Through the amendments, the requirement of existence of a right to defer settlement for at least 12 months after the reporting date has been removed. Instead, it is now required that the said right should exist on the reporting date and such right should have substance. The amendment also introduces guidance on classification of liabilities with covenants.

   The Company has reviewed the amendments. Based on its evaluation the Company has determined that there is no impact of these amendments in its classification criteria of current and non-current liabilities.

3. Ind AS 7: Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures- applicable w.e.f. April 1, 2025.

   The amendment in Ind AS 7 requires informing users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk.

   The Company has reviewed the amendment. Based on its evaluation the Company has determined that it does not have any significant impact in its financial statements.

4. Ind AS 12: International Tax Reform – Pillar Two Model Rules- applicable immediately.

   The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. This relief is immediate and applies retrospectively.

   The Company has reviewed the amendments. Based on its evaluation the Company has determined that there is no impact of these amendments in its financial statements.

*__Securities Premium:__ Securities premium is used to record the premium received on issue of shares. It is utilized in accordance with the provisions of the Companies Act, 2013

#__Retained Earnings:__ Retained earnings are the profits that the Company has earned till date, less dividends or other distributions paid to shareholders.

**__Money received against convertible share warrant:__

A. Background and Initial Allotment

During the Financial Year 2023-24, the Company allotted 1,62,29,862 convertible share warrants on a private placement basis to four investors for an aggregate consideration of ₹53,242.06 lakhs. The warrants were issued at a price of ₹328.05 per warrant, determined in accordance with the pricing guidelines prescribed under Regulation 164(1) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("ICDR Regulations").

B. Key Terms of the Warrants

- **__Subscription and Call Money:__** An amount equivalent to 25% of the warrant issue price was payable at the time of subscription, with the remaining 75% payable upon the exercise of the conversion option. As of March 31, 2025, the Company had received ₹13,311.73 lakhs (representing 25.0023% of the total consideration).

- **__Exercise Period:__** Warrant holders were entitled to exercise the conversion option, in one or more tranches, within a period of 18 months from the date of allotment. Unexercised warrants at the expiry of 18 months were subject to lapse and forfeiture of the initial upfront payment.

- **__Rights and Ranking:__** The warrants did not confer any shareholder rights (including voting or dividend rights) until conversion. Upon exercise, the resulting equity shares (face value of ₹10/- each) are to be issued in dematerialized form and rank pari passu in all respects with the existing equity shares of the Company.

- **__Lock-in and Listing:__** The warrants and the subsequent equity shares issued upon conversion are subject to lock-in requirements as per ICDR Regulations. The Company is required to secure necessary listing and trading approvals from the stock exchanges.

C. Conversion of Warrants During F.Y. 2025-26

During the financial year ended March 31, 2026, the warrant holders exercised their conversion option for the entirety of the outstanding warrants.

Consequently, the Company received the remaining 75% call money amounting to ₹39,930.33 lakhs. Accordingly, 1,62,29,862 equity shares of face value ₹10/- each were allotted to the warrant holders, and the entire balance under "Money received against convertible share warrants" has been transferred/allotted to Equity Share Capital and Securities Premium accounts."

(iii)	Other financial liabilities	13,151.86	10,239.24	13,151.86	10,239.24

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the company internally reviews valuations, including independent price validation for certain instruments. Further, in other instances, Company retains independent pricing vendors to assist in corroborating the valuations of certain instruments.

The fair value of the financial assets and liabilities are included at the amount at which the instrument that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

* The Company has not disclosed the fair values of trade payables, trade receivables, other bank balances and cash and cash equivalents because *their carrying amounts are reasonable approximations of fair value.*

Fair value of security deposits have been estimated using a discounted cash flow model. The valuation requires management to make certain assumptions about interest rates, maturity period, credit risk, forecasted cash flows.

Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the Company based on parameters such as interest rates, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables. As of reporting date the carrying amounts of such receivables, net of allowances are not materially different from their calculated fair values.

Carrying value of loans from banks, other non current borrowings and other financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The own non- performance risk as at reporting date was assessed to be insignificant.

Fair value hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities grouped into Level 1 to Level 3 as described in significant accounting policies - Note 1. Further table describes the valuation techniques used, key inputs to valuations and quantitative information about significant unobservable inputs for fair value measurements.

(a) Contract with Customers

The Company has recognised ₹6,82,142.35 lakhs (P.Y. ₹8,76,522.47 lakhs) as revenue from Contracts with customers during the year.

(b) Disaggregation of Revenue

Segments have been identified in accordance with Indian Accounting Standards (Ind AS) 108 on Operating Segments considering the risk or return profiles of the business. As required under Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on analysis of various performance indicators. Accordingly, information has been presented for the Group's operating segments and the Company has identified the business segment as the primary segment. The reportable segment is Engineering,Procurement and Construction of Real Estate is at a nascent stage and no actual operations have commenced.

Therefore the Company has identified the reportable segment as 'Engineering,Procurement and Construction of Real Estate' and it believes that this identification best depicts show the nature, amount, timing and uncertainty of our revenues and cash flows are affected by industry, market and other economic factors.

(c) Contract Balances

Details of trade receivables, contract assets and contract liabilities arising from the contracts with customers are given below:

(₹ in Lakhs)

Particulars	31st March 2026	31st March 2025
Trade receivables (Refer Note 7)	178,336.94	138,401.63
Contract Assets:		
Retention Money, Withheld Money, Security & Other Deposits (Refer Note 10)	73,605.43	73,190.07
Unbilled Revenue (Refer Note 5)	150,547.98	123,469.75
Contract Liabilities:		
Advances from customers (Refer Note 16)	35,921.66	48,407.28

Revenue for construction contracts is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. Revenue in excess of billings is recognised as Unbilled revenue and is classified as Financial Asset for these cases as right to consideration is unconditional upon passage of time.

During the year ended March 31, 2026, ₹1,23,469.75 lakhs (P.Y. ₹ 1,25,395.54 lakhs) of opening unbilled revenue has been either reclassified to Trade Receivables upon billing to customers on completion of milestone or has been part of closing unbilled revenue.

Changes in Contract Assets and Contract Liabilities are on account of transactions undertaken in the normal course of business.

Consolidated Financial Statements

Independent Auditor's Report

To the Members of **Dilip Buildcon Limited**

Report on the Audit of Consolidated Ind AS Financial Statements

1. Opinion

We have audited the accompanying consolidated Ind AS financial statements of Dilip Buildcon Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group") and its associate, which comprise the Consolidated Balance Sheet as at March 31, 2026, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended and a summary of material accounting policies and other explanatory information (hereinafter referred to as 'consolidated Ind AS financial statements').

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated Ind AS financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended of the consolidated state of affairs of the Group and associate, as at March 31, 2026, its consolidated profit and consolidated total other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year ended on that date.

2. Basis for Opinion

We conducted our audit of the consolidated Ind AS financial statements in accordance with the Standards on Auditing, as prescribed under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Ind AS financial statements section of our report. We are independent of the Group and associate in accordance with the ethical requirements that are relevant to our audit of the consolidated Ind AS financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3 Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated Ind AS financial statements of the current year. These matters were addressed in the context of our audit of the consolidated Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. no.	Key Audit Matter	Auditors Response
1	**Revenue recognition and accounting for Construction contracts**	
	Significant accounting judgements including estimation of costs to complete, determining the stage of completion and the timing of revenue recognition. For majority of its contracts, the Holding Company recognizes revenue and profit/loss from construction contracts on the stage of completion, based on the proportion of contract costs incurred for the work performed to the balance sheet date, relative to the estimated costs on the contract at completion. The recognition of revenue and profit / loss therefore are based on estimates in relation to the estimated total costs of each contract. At each reporting date, revenue is accrued for costs incurred against work performed in accordance with the contract for which invoice may not have been raised. Identification that	We performed the following audit procedures: Testing the design and implementation of internal controls including control over process for determining estimates used as evaluating whether they are operating effectively. Testing related information used in recording and disclosing revenue in accordance with the relevant accounting standard. Testing different sample of contracts for identification of performance obligations Reviewed the Holding Company's process of collecting information supporting the basis for accrual of costs against work performed upto the cut off dates. Reviewed the design and operating effectiveness of management's key controls in collecting such data with respect of costs.

Sr. no.	Key Audit Matter	Auditors Response
	such accrual will result into work that would be billable and recoverable when the work has not been acknowledged by the customer involves significant amount of judgement. Revenue on contracts may also include variable consideration (variations and claims). Variable considerations are recognized when the recovery of such consideration is highly probable. The nature of these judgements results in being subject to management override.	Tested the cut-offs for revenue recognized against such un-invoiced amounts and reviewed the process of such recognition Review for change of scope and impact of the same on estimated costs to complete the contracts Perform analytical procedures for reasonableness of revenues disclosed by type of contracts.
2	**Assessment of receivables (including unbilled receivables)**	
	Risk of material misstatement related to estimation of expected credit loss as a result of lack of precision in their measurement. The estimates depend on number of factors such as ageing, credit risks and the ability of the parties to make payment.	We performed the following audit procedures: Assessed the Holding Company's basis for determining the model, internal controls based on which the Holding Company determines the basis of provisioning, compliance with and consistently applying the accounting policies Verification of subsequent receipts and post balance sheet events if any.

4. Information other than the consolidated Ind AS financial statements and Auditor's report thereon

The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholders Information, but does not include the consolidated Ind AS financial statements and our auditor's report thereon. This other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated Ind AS financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated Ind AS financial statements or our knowledge obtained during the course of audit, or otherwise appears to be materially misstated.

When we read the other information included in the above reports, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with governance and determine the actions under the applicable laws and regulations.

5. Management's responsibility for the Consolidated Ind AS financial statements

The Holding company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated Ind AS financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group and associate in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.

The respective Board of Directors of the companies included in the Group and Board of Directors of the associate company are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and associate and for preventing and detecting frauds and other irregularities; selection and application of appropriate material accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the directors of the holding company as aforesaid.

In preparing the consolidated Ind AS financial statements, the respective Board of Directors of the companies included in the Group and Board of Directors of the associate company are responsible for assessing the ability of the Group and associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management either intends to liquidate the Group and associate or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the Companies included in the Group and Board of Directors of the associate company are responsible for overseeing the financial reporting process of the Group and associate.

6. Auditor's Responsibilities for the Audit of the Consolidated Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated Ind AS financial statements.

As part of an audit in accordance with Standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We, also:

i) Identify and assess the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

ii) Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Companies included in the Group and associate has adequate internal financial controls system in place and the operating effectiveness of such controls.

iii) Evaluate the appropriateness of material accounting policies used and the reasonableness of accounting estimates and related disclosures made by Companies included in the Group and associate.

iv) Conclude on the appropriateness of Companies included in the Group and associate company's management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and associate to cease to continue as a going concern.

v) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

vi) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and associate to express an opinion on the consolidated Ind AS financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated Ind AS financial statements of which we are the independent auditors. For the other entities included in the consolidated Ind AS financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated Ind AS financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. Other Matters

We did not audit the financial statements and other financial information, in respect of thirty subsidiaries, whose Ind AS financial statements and other financial information include total assets of Rs. 8,20,375.02 lakhs as at March 31,2026; total revenues of Rs. 5,15,538.90 lakhs for the year ended March 31, 2026; total profit after tax of Rs. 53,457.78 lakhs for the year ended March 31,2026: total other comprehensive income of Rs. 52,346.45 lakhs for year ended March 31, 2026 and net cash outflows of Rs. 84,516.99 lakhs for the year ended March 31, 2026.

Annexure B to the Independent Auditor's Report Of Even Date On The Consolidated Ind As Financial Statements Of Dilip Buildcon Limited

Referred to in paragraph [8(ii)(f)] under Report on Other Legal and Regulatory Requirements of our report of even date

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls with reference to Consolidated Ind AS Financial Statements of Dilip Buildcon Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its Subsidiaries together referred to as "the Group") and its associate, of March 31, 2026, in conjunction with our audit of the consolidated Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, subsidiary companies and associate company, incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls with reference to Consolidated Ind AS Financial Statements issued by the Institute of Chartered Accountants of India" (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Group's and its associate's internal financial controls with reference to Consolidated Ind AS Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal financial controls with reference to Consolidated Ind AS Financial Statements (the "Guidance Note") and the Standards on Auditing issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Consolidated Ind AS financial statements and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Ind AS Financial Statements was established and maintained and if such controls operated effectively in all material respects.

   Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Ind AS Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Ind AS Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

   We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Group's and its associate internal financial controls system over financial reporting.

Meaning of Internal financial controls with reference to Consolidated Ind AS Financial Statements

4 A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal financial controls with reference to Consolidated Ind AS Financial Statements

5 Because of the inherent limitations of internal financial controls with reference to Consolidated Ind AS Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Ind AS Financial Statements to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

6 In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls with reference to Consolidated Ind AS Financial Statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Holding Company and its subsidiary companies, considering the essential components of internal control stated in the Guidance Note on Audit of Internal financial controls with reference to Consolidated Ind AS Financial Statements issued by the Institute of Chartered Accountants of India.

Other Matters

7 Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to Consolidated Ind AS Financial Statements insofar as it relates to thirty subsidiary companies and one associate company incorporated in India, and to whom internal control over financial reporting is applicable, is based on the corresponding reports of the Auditors of such companies.

The Holding Company is presently in the business of development of infrastructure facilities on Engineering Procurement and Construction basis (EPC) and undertakes contract from various Government and other parties and special purpose vehicles promoted by the Company.

1.2 Basis of Preparation of financial statements

The Company's Ind AS financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs under sections 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Comapnies (Indian Accounting Standards) Amendment Rules 2016.

The consolidated financial statements of the Company for the year ended 31st March 2026 were approved for issue in accordance with the resolution of the Board of Directors on 14th May 2026.

1.3 Basis of accounting

The Company maintains its accounts on accrual basis following the historical cost convention, except for certain financial instruments that are measured at fair values in accordance with Ind AS. Further, the guidance notes/ announcements issued by the Institute of Chartered Accountants of India (ICAI) are also considered, wherever applicable except to the extent where compliance with other statutory promulgations override the same requiring a different treatment.

1.4 Presentation of Financial Statements

The Balance Sheet, Statement of Profit and Loss and Statement of Changes in equity are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Accounting Standards and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

1.5 Current / Non-Current classification

An asset or liability is classified as 'current' when it satisfies any of the following criteria:

(i) it is expected to be realized or settled, or is intended for sale or consumption in, the company's normal operating cycle;

(ii) it is held primarily for the purpose of being traded;

(iii) it is expected to be realized or settled within twelve months from the reporting date; or

(iv) an asset is cash or a cash equivalent unless it is restricted from being exchanged or used to settle a liability for atleast twelve months from the reporting date

(v) in case of liability, the company does not have an unconditional right to defer settlement of the liability for atleast twelve months from the reporting date.

All other assets and liabilities are classified as non-current.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out above which are in accordance with Schedule III to the Act.

Operating Cycle

Based on the nature of products and services of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

1.6 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Notes to the Consolidated Ind AS Financial Statements

for the year ended 31 March 2026

This note provides an overview of the areas that involved a higher degree of judgement or complexity and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in the relevant note.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

A. Judgements in applying accounting policies

The judgements, apart from those involving estimations (see note below) that the Company has made in the process of applying its accounting policies and that have a significant effect on the amounts recognised in these financial statements pertain to useful life of assets. The Company is required to determine whether its intangible assets have indefinite or finite life which is a subject matter of judgement.

B. Key source of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

a) Property, Plant and Equipment

Determination of the estimated useful lives of tangible assets and the assessment as to which components of the cost may be capitalized separately. Useful lives of tangible assets are based on the life prescribed in Schedule II of the Companies Act, 2013. In cases, where the useful lives are different from that prescribed in Schedule II, they are based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers' warranties and maintenance support.

b) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined based on the prevailing market yields of Indian Government Securities as at the Balance Sheet Date for the estimated term of the obligations

c) Recognition of deferred tax assets

A deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised.

d) Recognition and measurement of other provision

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the figure included in other provisions.

e) Discounting of long-term financial instrument

All financial instruments are required to be measured at fair value on initial recognition. In case of financial instruments which are required to be subsequently measured at amortised cost, interest is accrued using the effective interest method.

1.7 Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries. The assets, liabilities, income and expenses of subsidiaries are aggregated and consolidated, line by line, from the date control is acquired by any Group entity to the date it ceases. Profit or loss and each component of other comprehensive income are attributed to the Group as owners and to the non-controlling interests.

The Group presents the non-controlling interests in the Balance Sheet within equity, separately from the equity of the Group as owners. The excess of the Group's investment in a subsidiary over its share in the net worth of such subsidiary on the date control is acquired is treated as goodwill while a deficit is considered as a capital reserve in the Consolidated Financial Statements. On disposal of the subsidiary, attributable amount on goodwill is included in the determination of the profit or loss and recognised in the Statement of Profit and Loss. Impairment loss, if any, to the extent the carrying amount exceeds the recoverable amount is charged off to the Statement of Profit and Loss as it arises and is not reversed. For impairment testing, goodwill is allocated to Cash Generating Unit (CGU) or a group of CGUs to which it relates, which is not larger than an operating segment, and is monitored for internal management purposes.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's separate financial statements.

Notes to the Consolidated Ind AS Financial Statements

for the year ended 31 March 2026

1.8 Functional and presentation currency

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

1.9 Property, plant and equipment and Depreciation

Property, Plant and Equipment is recognized when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the company. Advance given towards acquisition of Property, Plant and Equipment outstanding at the reporting date are disclosed as capital advances under Non-Current Assets.

Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognised in the statement of profit and loss. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

1.10 Intangible Assets and amortization

(a) Other Intangible Assets

Intangible assets that the Company controls and from which it expects future economic benefits are capitalised upon acquisition at cost comprising the purchase price and directly attributable costs to prepare the assets for its intended use.

Intangible Assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognized in the Statement of Profit and Loss in the same period.

Intangible assets that have finite lives are amortised over their useful lives by the straight line method.

(b) Service concession arrangements (Toll Rights)

The Company recognises an intangible asset arising from a service concession arrangement to the extent the company has right to charge for the use of concession infrastructure. Intangible asset would be initially measured at cost. The fair value, at the time of initial recognition of such an intangible asset received as consideration for providing construction or upgrade services in a service concession arrangement, is regarded to be its cost. Borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost. Subsequent to initial recognition the intangible asset is measured at cost less accumulated amortisation and accumulated impairment losses.

Subsequent costs

Subsequent costs are capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates.

- **Amortisation**

Amortisation is calculated over the cost of the asset, or other amount substituted for cost, less its residual value. Amortisation is recognised in statement of profit and loss on a straight-line basis over the estimated useful lives of intangible assets from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

estimated useful life of an intangible asset in a service concession arrangement is a period from when the company has right to charge the user of infrastructure for such use to the end of the concession period.

1.11 Investments in associates, joint ventures and subsidiaries

Investments in Subsidiaries, Associates and Joint Ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount.

An investment in joint venture or associate is initially recognised at cost and adjusted thereafter to recognise the Group's share of profit or loss and other comprehensive income of the joint venture or associate. Gain or loss in respect of changes in Other Equity of joint ventures or associates resulting from divestment or dilution of stake in the joint ventures and associates is recognised in the Statement of Profit and Loss. On acquisition of investment in a joint venture or associate, any excess of cost of investment over the fair value of the assets and liabilities of the joint venture and associate, is recognised as goodwill and is included in the carrying value of the investment in the joint venture and associate. The excess of fair value of assets and liabilities over the investment is recognised directly in equity as capital reserve.

The unrealised profits/losses on transactions with joint ventures and associates are eliminated by reducing the carrying amount of investment.

On disposal of investments in subsidiaries, associates and joint venture, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

1.12 Investments in Units of InvIT

Investments in Units of InvIT are measured at fair value through Other Comprehensive Income as per Ind AS 109 'Financial Instruments'. The Company has on Initial recognition, made an irrevocable election to present subsequent changes in the fair value in other comprehensive income (FVOCI) on an instrument by-instrument basis.

For equity investment classified as at FVOCI, all fair value changes on the instruments, excluding dividends and interest are recognized in the OCI. There is no recycling of the amounts from OCI to profit or Loss, even on sale of Investments. The Company transfers the cumulative gain or loss within equity.

1.13 Inventories

Construction material, components, stores and spares are valued at lower of cost or net realisable value. Cost is determined on first in first out basis and comprise all cost of purchase, duties, taxes and all other costs incurred in bringing the inventory to their present location and condition.

1.14 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset or cash generating unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset. The recoverable amount is the higher of an asset's or CGU's net selling price or its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in the statement of profit and loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

1.15 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition

The Company recognizes financial assets when it becomes a party to the contractual provisions of the instrument. All financial assets are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

Subsequent measurement

For the purpose of subsequent measurement, financial assets are classified in two broad categories:- i] Financial assets at fair value and ii] Financial assets at amortised cost. Where assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss [i.e fair value through profit or loss], or recognised in other comprehensive income [i.e. fair

Notes to the Consolidated Ind AS Financial Statements
for the year ended 31 March 2026

value through other comprehensive income]. A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Derecognition

The company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the company neither transfers nor retain substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

Impairment of financial asset

For impairment of financial assets, Company applies expected credit loss (ECL) model. Following financial assets and credit risk exposure are covered within the ECL model:

a. Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balance

b. Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables including receivables recognised under service concession arrangements.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, then the impairment loss is provided based on lifetime ECL.

Financial liabilities

Initial recognition

The company initially recognises borrowings, trade payables and related financial liabilities on the date on which they are originated.

All other financial instruments (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the company becomes a party to the contractual provisions of the instrument.

Non-derivative financial liabilities are initially recognised at fair value, net of transaction costs incurred.

Subsequent measurement

Financial liabilities are subsequently carried at amortized cost using the effective interest method, except for contingent consideration recognized in a business combination which is subsequently measured at fair value through profit and loss. For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

1.16 Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases.

For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the option to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

1.17 Provisions and Contingencies

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events, it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Contingent liabilities are not provided for and are disclosed by way of notes.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost in the statement of profit and loss.

1.18 Revenue recognition

Revenue from contracts with customers is recognised when a performance obligation is satisfied by transfer of promised goods or services to a customer.

For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognises revenue over a period of time if one of the following criteria is met:

(a) the customer simultaneously consumes the benefit of the Company's performance or

(b) the customer controls the asset as it is being created/ enhanced by the Company's performance or

(c) there is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents.

In all other cases, performance obligation is considered as satisfied at a point in time.

The revenue is recognised to the extent of transaction price (net of variable consideration) allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in profit or loss immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfil a contract are amortised over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Notes to the Consolidated Ind AS Financial Statements

for the year ended 31 March 2026

Significant judgments are used in:

a. Determining the revenue to be recognised in case of performance obligation satisfied over a period of time; revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation.

b. Determining the expected losses, which are recognised in the period in which such losses become probable based on the expected total contract cost as at the reporting date.

c. Determining the method to be applied to arrive at the variable consideration requiring an adjustment to the transaction price.

(i) Revenue from Operations:

A) Revenue from construction/project related activity is recognised as follows:

(a) Cost plus contracts: Revenue from cost plus contracts is recognised over time and is determined with reference to the extent performance obligations have been satisfied. The amount of transaction price allocated to the performance obligations satisfied represents the recoverable costs incurred during the period plus the margin as agreed with the customer.

(b) Fixed price contracts: Contract revenue is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

B) Revenue from rendering of services is recognised over time as the customer receives the benefit of the Company's performance and the Company has an enforceable right to payment for services transferred.

Unbilled revenue represents value of services performed in accordance with the contract terms but not billed.

C) Other operational revenue represents income earned from the activities incidental to the business and is recognised when the performance obligation is satisfied and right to receive the income is established as per the terms of the contract.

(ii) Other Income:

Interest income on investments and loans is accrued on a time basis by reference to the principal outstanding and the effective interest rate including interest on investments classified as fair value through profit or loss or fair value through other comprehensive income.

Dividend income is accounted in the period in which the right to receive the same is established.

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

1.19 Borrowing Cost

Borrowing costs are interest and other costs (including exchange differences relating to foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs) incurred in connection with the borrowing of funds. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalised as part of the cost of that asset. Other borrowing costs are recognised as an expense in the period in which they are incurred.

1.20 Earnings per equity share

Basic earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit or loss attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period present.

1.21 Cash Flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

1.22 Employee Benefits

Short Term Employment benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages etc. and the expected cost of ex-gratia are recognized in the period in which the employee renders the related service. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post Employment Employee Benefits

Retirement benefits to employees comprise payments to government provident funds, gratuity fund and Employees State Insurance.

Defined Contribution Plans

The Company's contribution to defined contributions plans such as Provident Fund, Employee State Insurance are recognised in the Statement of Profit and Loss in the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective Funds

Defined Benefit Plans

Gratuity liability is defined benefit obligation. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation by an independent actuary, using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government securities as at the Balance Sheet date.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after taking into account any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in Statement of Profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs. Actuarial gains/losses are recognized in the other comprehensive income.

1.23 Income Taxes

Current Tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Minimum alternative tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay income tax higher than that computed under MAT, during the year that MAT is permitted to be set off under the Income Tax Act, 1961 (specified year). In the year, in which the MAT credit becomes eligible to be recognized as an asset the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay income tax higher than MAT during the specified year.

Deferred Tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets

Notes to the Consolidated Ind AS Financial Statements

for the year ended 31 March 2026

and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. The company offsets deferred tax assets and deferred tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. The income tax provision for the interim period is made based on the best estimate of the annual average tax rate expected to be applicable for the full financial year.

1.24 Assets Held for Sale

Non-current assets are classified as held for sale when their carrying amount will be recovered principally through a sale transaction rather than continuing use and a sale is highly probable.

Assets designated as held for sale are held at the lower of carrying amount at designation and fair value less costs to sell.

1.25 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

For cash and other liquid assets, the fair value is assumed to approximate to book value, given the short term nature of these instruments. For those items with a stated maturity exceeding twelve months, fair value is calculated using a discounted cash flow methodology.

A fair value measurement of a non-financial asset considers a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the company has determined classes of assets and liabilities based on the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

1.26 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

1. Ind AS 21: The Effects of Changes in Foreign Exchange Rates- applicable with effect from April 1, 2025.

   The amendments are pertaining to exchangeability of currency.

   The Group has reviewed the amendments and based on its evaluation has determined that it does not have any significant impact in its financial statements.

2. Ind AS 1: Presentation of Financial Statements- applicable w.e.f. April 1, 2025.

   The amendment relates to classification of liabilities as current or noncurrent and non-current liabilities with covenants. The amendments are pertaining to classifying a liability as current. Through the amendments, the requirement of existence of a right to defer settlement for at least 12 months after the reporting date has been removed. Instead, it is now required that the said right should exist on the reporting date and such right should have substance. The amendment also introduces guidance on classification of liabilities with covenants.

The Group has reviewed the amendments. Based on its evaluation, the Group has determined that there is no impact of these amendments in its classification criteria of current and non-current liabilities.

3. Ind AS 7: Statement of Cash Flows and Ind AS 107, Financial Instruments: Disclosures- applicable w.e.f. April 1, 2025.

   The amendment in Ind AS 7 requires informing users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk.

   The Group has reviewed the amendment. Based on its evaluation, the Group has determined that it does not have any significant impact in its financial statements.

4. Ind AS 12: International Tax Reform – Pillar Two Model Rules- applicable immediately.

   The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. This relief is immediate and applies retrospectively.

   The Group has reviewed the amendments. Based on its evaluation, the Group has determined that there is no impact of these amendments in its financial statements.

11(b) (iii) Debenture Redemption Reserve: In the previous year, Debenture Redemption Reserve amounting to ₹3,343.70 lakhs was created for redemption of debentures. During the current year, pursuant to the sale of subsidiary Companies which had issued the debentures and created DRR, the Debenture Redemption Reserve has been transferred to Retained Earnings.

11(b) (iv) Loan Redemption Reserve: In the previous year, Loan Redemption Reserve amounting to ₹41,126.56 lakhs was created for loan repayment in future. During the current year, pursuant to the sale of subsidiary Companies which had loan/borrowings, the Loan Redemption Reserve has been transferred to Retained Earnings

11 (b)(v) Money received against convertible share warrant:

A. Background and Initial Allotment

uring the Financial Year 2023-24, the holding Company allotted 1,62,29,862 convertible share warrants on a private placement basis to four investors for an aggregate consideration of ₹53,242.06 lakhs. The warrants were issued at a price of ₹328.05 per warrant, determined in accordance with the pricing guidelines prescribed under Regulation 164(1) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 (""ICDR Regulations"").

B. Key Terms of the Warrants

- **Subscription and Call Money:** An amount equivalent to 25% of the warrant issue price was payable at the time of subscription, with the remaining 75% payable upon the exercise of the conversion option. As of March 31, 2025, the holding Company had received ₹13,311.73 lakhs (representing 25.0023% of the total consideration).

- **Exercise Period:** Warrant holders were entitled to exercise the conversion option, in one or more tranches, within a period of 18 months from the date of allotment. Unexercised warrants at the expiry of 18 months were subject to lapse and forfeiture of the initial upfront payment.

- **Rights and Ranking:** The warrants did not confer any shareholder rights (including voting or dividend rights) until conversion. Upon exercise, the resulting equity shares (face value of ₹10/- each) are to be issued in dematerialized form and rank pari-passu in all respects with the existing equity shares of the holding Company.

- **Lock-in and Listing:** The warrants and the subsequent equity shares issued upon conversion are subject to lock-in requirements as per ICDR Regulations. The holding Company is required to secure necessary listing and trading approvals from the stock exchanges.

Note 11(b): Other Equity (Contd..)

C. Conversion of Warrants During F.Y. 2025-26

During the financial year ended March 31, 2026, the warrant holders exercised their conversion option for the entirety of the outstanding warrants.

Consequently, the holding Company received the remaining 75% call money amounting to ₹39,930.33 lakhs. Accordingly, 1,62,29,862 equity shares of face value ₹10/- each were allotted to the warrant holders, and the entire balance under ""Money received against convertible share warrants"" has been transferred/allotted to Equity Share Capital and Securities Premium accounts."

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. In addition, the Company internally reviews valuations, including independent price validation for certain instruments. Further, in other instances, Company retains independent pricing vendors to assist in corroborating the valuations of certain instruments.

The fair value of the financial assets and liabilities are included at the amount at which the instrument that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date.

The following methods and assumptions were used to estimate the fair values:

*The Company has not disclosed the fair values of trade payables, trade receivables, other bank balances and cash and cash equivalents because their carrying amounts are reasonable approximation of fair value.

Fair value of security deposits have been estimated using a discounted cash flow model. The valuation requires management to make certain assumptions about interest rates, maturity period, credit risk, forcasted cash flows.

Note 31: Fair value of financial assets and liabilities (Contd..)

Long-term fixed-rate and variable-rate receivables/borrowings are evaluated by the Company based on parameters such as interest rates, individual creditworthiness of the customer and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables. As of reporting date the carrying amounts of such receivables, net of allowances are not materially different from their calculated fair values.

Carrying value of loans from banks, other non current borrowings and other financial liabilities is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities. The own non- performance risk as at reporting date was assessed to be insignificant.

Note 36: Segment Reporting

A Segments have been identified in accordance with Indian Accounting Standards (Ind AS) 108 on Operating Segments considering the risk or return profiles of the business. As required under Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the performance and allocates resources based on analysis of various performance indicators. Accordingly, information has been presented for the DBL Group's operating segments.

B The DBL Group has two business Segments :

(a) Engineering, Procurement and Construction (EPC) Projects & Road Infrastructure Maintenance

(b) Annuity Projects & Others

C Segment Revenue, Segment Results, Segment Assets and Segment Liabilities include the respective amounts identifiable to each of the segments as also amounts allocated on a reasonable basis.

D Assets and Liabilities that cannot be allocated between the segments are shown as a part of unallocated corporate assets and liabilities respectively

(c) Contract Balances and Trade Receivables

(i) Contract Balances

Details of trade receivables, contract assets and contract liabilities arising from the contracts with customers are given below:

(₹in Lakhs)

Particulars	31st March 2026	31st March 2025
Trade receivables (Refer Note 4)	344,367.42	441,851.26
Contract Assets:		
Retention Money, Withheld Money, Security & Other Deposits (Refer Note 10)	77,400.12	82,393.62
Unbilled Revenue (Refer Note 8)	159,890.60	123,469.75
Contract Liabilities:		
Advances from customers (Refer Note 16)	32,732.41	54,905.08

Revenue for construction contracts is recognised in profit or loss in proportion to the stage of completion of the contract. The stage of completion is assessed by reference to surveys of work performed. Otherwise, contract revenue is recognised only to the extent of contract costs incurred that are likely to be recoverable. Revenue in excess of billings is recognised as Unbilled revenue and is classified as Financial Asset for these cases as right to consideration is unconditional upon passage of time.

During the year ended 31 March 2026, ₹1,23,469.75 lakhs (P.Y. ₹1,37,119.76 lakhs) of opening unbilled revenue has been either reclassified to Trade Receivables upon billing to customers on completion of milestone or has been part of closing unbilled revenue.

Changes in Contract Assets and Contract Liabilities are on account of transaction undertaken in the normal course of business.

(d) Performance Obligations

The DBL Group has applied the practical expedient as provided in Ind AS 115 and excluded the disclosure relating to remaining performance obligation for:

(i) Contracts where the original expected duration is one year or less

(ii) Contracts where the revenue recongnized corresponds directly with the value to the customer of the entity's performance completed to date. Typically this involves those contracts where invoicing is on time and material basis.

Remaining performance obligation estimates are subject to change and are affected by several factors such as terminations, changes in the scope of contracts, periodic revalidations of estimates and other macro economic factors.

The aggregate amount of transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at 31 March 2026, after considering the practical expedient mentioned above is ₹28,82,965.17 lakhs (P.Y. ₹14,92,270.00 lakhs) out of which 60% is expected to be recognised as revenue within the next one year and the balance thereafter.
