About Lloyds Metals & Energy Limited

Lloyds Metals and Energy Limited ("LMEL"), incorporated in 1977, is a leading integrated metal and mining company and the largest merchant iron ore miner in Maharashtra, India. LMEL operates one of the country's largest single-location iron ore mines at Surjagarh, Gadchiroli district, with an expanded Environmental Clearance (EC) capacity of 55 million tonnes per annum (MTPA), including beneficiation of Banded Hematite Quartzite (BHQ).

The Company has a Direct Reduced Iron (DRI) manufacturing capacity of 700,000 TPA spread across two locations in Maharashtra. In addition, LMEL has successfully commissioned an 85 km slurry pipeline from Hedri to Konsari and has scaled up its pellet-making capacity to 8 MTPA at Konsari, significantly strengthening its logistics integration and downstream value addition.

Extending its footprint across the broader metals value chain, LMEL has also forayed into copper through strategic investments in mining assets in the Democratic Republic of Congo (DRC), marking the Company's entry into base metals and reinforcing its long-term resource security and growth ambitions.

With strategic mine location advantages, LMEL caters to key steel and industrial markets across India, reinforcing its position as a vital contributor to the country's steel value chain.

Guided by rich cultural values and over four decades of operational excellence, LMEL is committed to redefining mining and ironmaking through a focus on sustainability, innovation, and cost leadership. The Company continuously benchmarks its business vision, governance, manufacturing processes, and community engagements against global best-in-class standards to create long-term value for all stakeholders.
