Rating Update

November 29, 2025 | Mumbai

Halder Venture Limited

Update as on November 29, 2025

This update is provided in continuation of the rating rational below.

The key rating sensitivity factors for the rating include:

Upward Factors:

- Moderate revenue growth while maintaining healthy margin of more than 5% leading to higher-than-expected net cash accrual
- Efficient working capital management and improved financial risk profile

Downward Factors:

- Substantial decline in revenue and profitability leading to cash accrual below Rs 10 crore.
- Any large, unplanned debt-funded capex and/or any stretch in the working capital cycle weakening the capital structure and liquidity risk profile

Crisil Ratings has a policy of keeping its accepted ratings under constant and ongoing monitoring and review. Accordingly, Crisil Ratings seeks regular updates from companies on the business and financial performance. Crisil Ratings is, however, awaiting adequate information from Halder Venture Limited (HVL; part of the Halder group) which will enable us to carry out the rating review. Crisil Ratings will continue provide updates on relevant developments from time to time on this credit.

Crisil Ratings also identifies information availability risk as a key credit factor in the rating assessment as outlined in its criteria ‘Information Availability Risk in Credit Ratings’.

About the Group

The Halder group is engaged in rice milling and edible oil processing and manufactures products such as par boiled rice, puffed rice, rice bran, rice bran oil, sunflower oil, soyabean oil, mustard oil and de-oiled rice bran cakes. Mr Prabhat Kumar Halder and his family members, the promoters of the group, are based in Birbhum, West Bengal, and have been associated with the rice milling business since 1924. The group's day-to-day operations are looked after by the director, Mr Prabhat Kumar Halder, and Mr Keshab Kumar Halder. The group markets its products under the Bhojmoti, Odaana and Moti brands.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

Crisil Ratings

Rating Rationale

April 25, 2025 | Mumbai

Halder Venture Limited

Rating outlook revised to 'Positive'; Rating Reaffirmed; Rated amount enhanced for Bank Debt

Rating Action

Total Bank Loan Facilities Rated	**Rs.387.27 Crore (Enhanced from Rs.50 Crore)**
Long Term Rating	**Crisil BBB-/Positive (Outlook revised from 'Stable'; Rating Reaffirmed)**

Note: None of the Directors on Crisil Ratings Limited's Board are members of rating committee and thus do not participate in discussion or assignment of any ratings. The Board of Directors also does not discuss any ratings at its meetings.
1 crore = 10 million
Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings has revised its outlook on the long-term bank facility of Halder Venture Ltd (HVL; part of the Halder group) to **'Positive'** from 'Stable' while reaffirming the rating at '**Crisil BBB-'.**

The revision in outlook reflects the moderate business risk marked by healthy revenue growth in fiscal 2024 and the continuation of the same in fiscal 2025. Revenue declined in fiscal 2023 owing to reduced export sales due to export ban in the non-basmati rice segment and cancellation of export orders. However, steady ramp-up in the edible oil segment and removal of export ban in non-basmati rice segment has helped in resumption of revenue growth leading to estimated topline of more than Rs 800 crore in fiscal 2025 from Rs 646.2 crore in fiscal 2024 while sustaining healthy margin at more than 5%. Net cash accrual of more than Rs 30 crore remains sufficient against repayment obligations of less than Rs 5 crore. Financial risk profile has improved marked by estimated networth of more than Rs.165 crore with gearing of less than 1.5 times as on March 31, 2025.

The rating continues to reflect the established market position and healthy product diversity of the Halder group along with moderate financial risk profile. These strengths are partially offset by susceptibility to intense competition, climatic conditions and volatility in raw material prices along with large working capital requirement.

Analytical Approach

Crisil Ratings has combined the business and financial risk profiles of HVL, Halder Green Fuel Industries Ltd (HGFIL), Prakriti Commercial Pvt Ltd (PCPL) and Intellect Buildcom Pvt Ltd (IBPL) as all these entities together referred to as the Halder group, operate in the same industry and have significant business, operational and financial linkages.

Further, under the scheme of amalgamation with effect from April 1, 2025 as per the National Company Law Tribunal (NCLT) order passed in December 2024, HVL is merged with five of its group companies which are P. K. Agri Link Pvt Ltd (PKALPL), P. K. Cereals Pvt Ltd (PKCPL), Shri Jatadhari Rice Mill Pvt Ltd (SJRMPL), JDM Commercial Pvt Ltd (JCPL), Reliable Advertising Pvt Ltd (RAPL).

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

- **Established market position:** The six-decade-long experience of the promoters, their strong understanding of market dynamics and healthy relationships with customers and suppliers will continue to support the business. The company deals with over 1000 wholesalers and retailers across East India and has a prominent brand presence in parboiled rice segment in the export market. The extensive experience has enabled the promoters to establish strong recall value for its Bhojmoti, Moti and Odaana brands and build longstanding relationships with customers and suppliers. These factors should continue to support the business. The group has recorded an estimated turnover of over Rs 697 crore until December 2024 and more than Rs 800 crore for fiscal 2025. On the back of established brand recall in East India and the export market, healthy volumetric growth driven by steady demand coupled with stable realisations, revenue profile is expected to remain around similar levels over the medium term. Operating profitability, going forward, shall continue to be supported by healthy capacity utilisation and moderate realisation.

- **Moderate financial risk profile:** Halder group's financial risk profile is moderate marked by estimated networth and gearing of Rs.165.5 crore and 1.4 times, respectively, as on March 31, 2025. The moderate capital structure cushions the group's credit risk profile from any sudden change in business conditions. Debt protection metrics are robust, reflected in estimated interest coverage and net cash accrual to total debt ratios of more than 2 times and 14%, respectively, in fiscal 2025. The financial risk profile should remain robust in the absence of any large debt-funded capital expenditure (capex) plan for the medium term.

Weaknesses:

- **Exposure to intense competition in the edible oils industry and volatility in the prices of raw materials:** The rice and oils industries have a few big players and several small unorganised players, who primarily cater to regional demand to save on transportation cost. Intense market competition has resulted in low operating margin for all industry players. Furthermore, prices of paddy and raw materials required for edible oils are volatile. Crop yield of agricultural commodities is dependent on adequate and timely monsoon. Thus, the Halder group is exposed to the risk of limited availability of its key raw material during a weak monsoon. Also, production may be impacted by pests or crop infection, leading to higher unpredictability in the production and pricing of agricultural commodities and derived products. The company is susceptible to any sharp fluctuation in raw material prices, which depend on inflation, monsoon and government policies, as any increase in input cost cannot be entirely passed on to customers immediately, given the competitive environment. Hence, sustenance of revenue growth and healthy operating profitability amidst intense competition and volatility in raw material prices and changes in government policies shall remain key monitorable.

- **Working capital intensive operations:** Gross current assets were sizeable at 180 days as on March 31, 2025 driven by significant inventory and receivables. Payables of 30-45 days partially support working capital. Operations are expected to remain working capital intensive over the medium term.

Liquidity: Adequate

Bank limit utilisation averaged a high 90% for the 12 months ended February 2025. Expected cash accrual of over Rs 25 crore is sufficient against term debt obligation of less than Rs 5 crore over the medium term. Current ratio was moderate at 1.26 times as on March 31, 2025.

Outlook: Positive

Crisil Ratings believes the group will continue to benefit from its established brand presence, the extensive experience of its promoters and steady demand.
