Prem Kishan Dass Gupta, Chairman & Managing Director, said:

"The container business witnessed a strong recovery compared to Q1, with revenue growing by 12%, EBITDA by 15.3%, and PAT by 23%, despite ongoing geopolitical uncertainties and a subdued macroeconomic environment. This performance is particularly encouraging given the continued challenges of container imbalances and erratic vessel schedules, without which our growth could have been even stronger.

While near-term uncertainties persist, we remain optimistic about our medium-term growth prospects. The commencement of EXIM operations at Ankleshwar, the progress of our upcoming Indore ICD, and the anticipated benefits from India's recently signed trade agreements provide strong growth opportunities for the business.

Snowman Logistics also continues to expand its network and is on track to reach a capacity of 175,000 pallets by mid-2027."
