approval for an equity raise of up to USD 450M, with combined equity and borrowings capped at USD 1,250M at the Extraordinary General Meeting. The proposed combination aligns with our long-term M&A strategy to strengthen our engineering capabilities, diversify our geographic presence and expand our global delivery capabilities. We value the confidence shown by our shareholders and financing partners as we work towards closing.

In parallel, we continue to strengthen our AI capabilities through our 3C framework and AI-driven platforms. Our focus is on developing Enterprise Context within our clients' environments that evolves with successive engagements and continues to grow in value as models, platforms and agents change.

Our sincere thanks to our clients, partners, employees and shareholders for their continued trust and support. We look forward to building on this momentum as Persistent prepares for an important new chapter."

Second Quarter FY27 Client Wins and Outcomes

The order booking for the quarter ended on September 30, 2026, was $633.5 million in Total Contract Value (TCV) and $481.0 million in Annual Contract Value (ACV).

Some of the key wins for the quarter include:

Software, Hi-Tech & Emerging Industries

- Accelerating mainframe and legacy modernization through agentic AI ecosystems, frontier models and a dedicated team of certified Forward Deployed Engineers (FDEs), enabling platform transformation across industries for a leading hyperscaler
- Reengineering a mission-critical Salesforce ecosystem through managed services, platform integration and AI-powered Customer 360, moving from stabilization to continuous delivery while unifying sales, service and operations for a leading storage and moving services provider
- Strengthening the data and AI foundation to keep pace with acquisition-led growth, addressing fragmented systems to accelerate brand integration and AI-powered personalization for an emerging U.S. beauty company

Banking, Financial Services & Insurance

- Modernizing a large legacy estate supporting personal lines policy administration by migrating to a cloud-native insurance platform, enabling modern pricing capabilities, reducing costs and improving agility for a Fortune 500 U.S. insurer
- Streamlining legacy branch oversight and equipment finance operations with AI agents to eliminate manual inefficiencies and fragmented data, strengthening consistency, scalability and compliance while enabling bankers to focus more on clients for a leading U.S. bank
