Commenting on the Results:

Mr. Om Prakash Lohia – Chairman & Managing Director said, *"During Q2 FY27, we delivered a strong performance, with revenue from operations improving despite a challenging operating environment. Geopolitical developments in the Middle East led to an increase in crude oil prices, resulting in higher raw material costs and continued volatility across the polyester value chain.*

During the quarter, we reported consolidated total income of ₹1344.0 crore, EBITDA of ₹117.7 crore with an EBITDA margin of 8.8%, and PAT of ₹74.1 crore. For H1 FY27, consolidated total income stood at ₹2284.2 crore, EBITDA at ₹225.7 crore with a margin of 9.9%, while PAT stood at ₹137.8 crore.

Looking ahead, we remain focused on further strengthening our operating and financial performance. As part of our growth strategy, we plan to invest approximately ₹200 crore over the next 12–18 months to diversify in specialty fibre and filament products. This investment is expected to broaden our product portfolio, increase our participation in value-added segments and support sustainable growth over the medium term."
