

Rating Update

July 30, 2025 | Mumbai

Epack Durable Limited

Update as on July 30, 2025

This update is provided in continuation of the rating rational below.

The key rating sensitivity factors for the rating include:

Upward factors:

- Sustained increase in operating income, aided by volumetric growth showcasing CAGR growth of 20-25% along with sustenance of operating margin at 8-9%, leading to higher-than-expected net cash accrual.
- Sustenance of healthy capital structure leading to further strengthening of financial risk profile of the company.

Downward factors:

- Decline in revenue or operating margin falling below 5%, leading to lower-than-expected net cash accrual.
- Further stretch in working capital cycle or large, debt-funded capex adversely affecting financial risk profile, particularly liquidity

Crisil Ratings has a policy of keeping its accepted ratings under constant and ongoing monitoring and review. Accordingly, Crisil Ratings seeks regular updates from companies on the business and financial performance. Crisil Ratings is, however, awaiting adequate information from Epack Durable Limited (EDL; part of the Epack group) which will enable us to carry out the rating review. Crisil Ratings will continue provide updates on relevant developments from time to time on this credit.

Crisil Ratings also identifies information availability risk as a key credit factor in the rating assessment as outlined in its criteria 'Information Availability Risk in Credit Ratings'.

About the Group

EDL (formerly, Epack Durable Pvt Ltd/was established in 2010 as a partnership firm by Bothra and Singhanian families. It was reconstituted as a private limited company in 2019 with the current name. About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

Epack Durable Limited

Ratings reaffirmed at 'CRISIL A-/Stable/CRISIL A2+'

Rating Action

Total Bank Loan Facilities Rated	Rs.470 Crore
Long Term Rating	CRISIL A-/Stable (Reaffirmed)
Short Term Rating	CRISIL A2+ (Reaffirmed)

Note: None of the Directors on CRISIL Ratings Limited's Board are members of rating committee and thus do not participate in discussion or assignment of any ratings. The Board of Directors also does not discuss any ratings at its meetings.

1 crore = 10 million

Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

CRISIL Ratings has reaffirmed its 'CRISIL A-/Stable/CRISIL A2+' ratings on the bank loan facilities of Epack Durable Limited (EDL; part of the Epack group).

The ratings continue to reflect the group's established market position and healthy financial risk profile. These strengths are partially offset by modest scale of operations and large working capital requirement

Analytical Approach

CRISIL Ratings has combined the business and financial risk profiles of EDL [Epack Durables Limited] and Epack Component Pvt Ltd (ECPL). This is because ECPL became a wholly owned subsidiary of EDL in August 2021, and the two companies are together referred as the Epack group. Furthermore, preference share capital has been treated as quasi equity as these are compulsory convertible shares.

The credit risk profile of EDL shall be evaluated on a standalone basis from the next rating exercise as ECPL has been merged with EDL.

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description

Strengths:

- Established market position:** The group has a strong market position in the refrigeration and air conditioning segment with experience of over 20 years, which has helped it to develop healthy relationships with industry majors such as Voltas, Havells, Blue Star, Bajaj, and Daikin. Operating income registered a compound annual growth rate (CAGR) of ~24% in the three fiscals through 2023; sales were ~Rs 890 crore till December 2023 in fiscal 2024, and are expected to be Rs 1,400-1,500 crore by fiscal-end. Operating income in fiscal 2025 is expected to remain strong on the back of healthy demand, launch of air coolers, and increased penetration of the component business.
- Healthy financial risk profile:** Gearing was comfortable at 0.73 time as on September 30, 2023, and is expected to improve further to an estimated 0.3-0.4 time as on March 31, 2024, as the group prepaid term loan out of IPO proceeds in the last quarter of fiscal 2024. With ~Rs 230.0 crore of IPO proceeds kept with banks and no major debt-funded capital expenditure (capex) planned, capital structure is expected to remain stable over the medium term. Debt protection metrics have also been strong in the past and will remain so over the medium term as well: interest coverage and net cash accrual to adjusted debt ratios were estimated to be more than 3 times and 0.3 time, respectively, in fiscal 2024. No debt-funded capex and range-bound operating margin of 7-9% will continue to keep financial risk profile healthy over the medium term.

Weaknesses:

- **Modest scale of operations:** Estimated operating income of Rs 1,400-1,500 crore in fiscal 2024 is largely similar to previous fiscal's level on account of deferred demand from the electric appliances industry in the fourth quarter of 2024, which delayed demand for air conditioners to the first quarter of fiscal 2025. This, along with the newly introduced air coolers, will cater to rising demand under the budget segment, which is expected to lead to a strong order book of more than Rs 700 crore in the first quarter of fiscal 2025. Hence, revenue this fiscal is likely to improve ~20% on-year. Steady improvement in scale amid sustenance of healthy operating margin shall remain a key rating sensitivity factor.
- **Working capital-intensive operations:** Gross current assets have been 170-200 days for the three fiscals through 2024, due to stretched receivables of 60-90 days and large inventory of 90-120 days. This is mitigated by credit from the suppliers and bank limit. With focus on the high-margin components business that has quicker realisations, working capital requirement is expected to improve. However, its efficient management, leading to lower reliance on bank limit and thereby strengthening the overall financial risk profile, will remain monitorable.

Liquidity: Strong

Expected annual net cash accrual of Rs 60-90 crore will be sufficient to meet yearly debt obligation of Rs 15-20 crore, over the medium term. Cash and bank balance are expected to be Rs 230-250 crore as IPO funds of Rs 230 crore have been earmarked as fixed deposits with banks. Fund-based working limit was utilised 37% on average during the 12 months through February 2024. Internal accrual, cash and equivalent, and unutilised bank limit will be sufficient to meet debt obligation as well as incremental working capital requirement.

Outlook: Stable

EDL will continue to benefit from its established market position in the consumer durables industry.
