Kilburn Engineering Delivers Resilient Q1 FY27 Performance; Healthy Order Inflows and ongoing Capacity Enhancements Position the Company for an Accelerated H2

Order inflows of approximately ₹190 crore secured in FY27 year-to-date; strategic capacity expansion across the Group lays the foundation for ₹1,000 crore-plus revenue potential.

Kolkata, 14 August 2026: Kilburn Engineering Limited (“Kilburn” or “the Group”), a leading manufacturer of industrial drying and process equipment, today announced its financial results for the quarter ended 30 June 2026.

CONSOLIDATED FINANCIAL RESULTS — P&L SUMMARY

All figures in ₹ Lacs unless otherwise stated.

Particulars (₹ Lacs)	Q1 FY27	Q1 FY26	Full Year (FY26)
Revenue from Operations	11,699	12,925	62,880
Total Income from Operations	12,052	13,177	64,329
Operating EBITDA	2,423	3,584	16,162
EBITDA Margin	20.10%	27.20%	25.13%
Profit Before Tax	1,755	2,965	13,613
Profit After Tax	1,309	2,131	9,621

Financial Performance

For Q1 FY27, the Group reported Revenue from Operations of ₹117.0 crore and EBITDA of ₹24.2 crore, resulting in an EBITDA margin of 20.1%. Profit Before Tax stood at ₹17.5 crore, while Profit After Tax was ₹13.1 crore.

Revenue during the quarter was influenced by the timing of customer delivery schedules and deferment of certain project execution into subsequent quarters. Despite the lower revenue base, the Group maintained healthy operating margins, reflecting disciplined cost management, operational efficiencies and a favourable project execution mix.

Order Inflows and Business Environment

The current geopolitical environment, particularly developments in the Middle East, has led to longer decision-making cycles for certain customers and projects. While enquiry activity across the Group's businesses remains healthy, conversion of opportunities into

firm orders has taken longer than anticipated, impacting the timing of order booking and execution rather than the overall scale of opportunities.

The Group has secured order inflows of approximately ₹190 crore in FY27 till date and expects conversion of several larger opportunities to accelerate during the second half of the financial year.

Investing for the Next Phase of Growth

The Group is undertaking capacity expansion initiatives across its businesses to support future growth.

- **Kilburn Engineering** and **M.E. Energy** are expanding manufacturing and execution capabilities.
- **Monga Strayfield** is in the process of significantly expanding its sheet-metal fabrication capacity to address growing demand from the rapidly expanding AI data-centre infrastructure sector.

Collectively, these investments are expected to position the Group to support annual revenues exceeding ₹1,000 crore over the medium term.

Strengthened Balance Sheet

During Q1 FY27, 30.375 lakh warrants issued at ₹425 per share were converted into equity shares by promoters and investors, resulting in the receipt of approximately ₹96.8 crore towards balance subscription money.

Together with the broader capital raise completed by the Group, the capital infusion has further strengthened the balance sheet and positions the Group as net debt-free, enhancing its ability to fund capacity expansion, support working capital requirements and pursue future growth opportunities.

Outlook

Based on the current order book, scheduled customer deliveries and execution visibility, the Group expects consolidated revenue of approximately ₹700 crore in FY27 while sustaining EBITDA margins of around 20%. Revenue and execution are expected to be weighted toward the second half of the year.

The Group continues to maintain a robust enquiry pipeline of approximately ₹4,000 crore across sectors and geographies and is targeting order inflows exceeding ₹800 crore during FY27.

KILBURN ENGINEERING LTD.

While geopolitical uncertainties continue to influence project award timelines, the underlying demand environment remains encouraging. Management expects order conversion momentum to improve over the balance of FY27, providing a strong platform for growth in FY28.

Management Commentary

Mr. Amritanshu Khaitan, Chairman, Kilburn Engineering Limited

"We remain confident in the Group's medium-term growth prospects despite near-term geopolitical uncertainties affecting the timing of customer decisions. Over the last few years, we have transformed Kilburn through a combination of organic growth, strategic acquisitions and balance-sheet strengthening, and are now focused on scaling the platform sustainably.

We are particularly encouraged by the addition of marquee global customers across emerging growth sectors. Monga Strayfield's success in securing orders from leading data-centre infrastructure companies has reinforced our confidence to significantly expand its fabrication capacity. Likewise, engagements with global fertiliser EPC leaders together with a growing pipeline in the fertiliser sector, provide strong visibility for future growth.

Our focus remains on expanding our addressable markets, deepening customer relationships and building a larger, diversified and sustainably profitable engineering group."

Mr. Ranjit Lala, Managing Director, Kilburn Engineering Limited

"Despite the timing-related impact on Q1 revenue, we maintained an operating EBITDA margin of 20.1%, reflecting disciplined project execution and cost management. Based on our current order book and scheduled customer deliveries, execution is expected to accelerate meaningfully in the second half of FY27.

We remain focused on converting the strong enquiry pipeline into orders while maintaining discipline on margins and project selection. This execution visibility underpins our expectation of approximately ₹700 crore of consolidated revenue for FY27 with EBITDA margins of around 20%."
