Shilp Gravures Expands Manufacturing Footprint with New Bengaluru Facility, Strengthening Presence in South India

Bengaluru, September 2026: Shilp Gravures Limited, a leading manufacturer of gravure cylinders and engraving solutions, has expanded its manufacturing footprint with the establishment of its Unit-II facility in Bengaluru, Karnataka, strengthening its presence in South India.

The expansion marks an important step in Shilp Gravures' long-term growth strategy, bringing its manufacturing capabilities closer to customers in the region. The new facility will increase the company's gravure cylinder manufacturing capacity by over 19%, while enabling faster turnaround and stronger on-ground technical support.

Equipped with advanced engraving and proofing technologies, precision-engineered rollers and modern manufacturing infrastructure, Unit-II is designed to deliver consistent print performance, process precision and application-specific solutions to all customers.

Commenting on the expansion, **Manish Vasavada, Deputy CEO, Shilp Gravures Limited**, said: “South India has been an important market for us, and Bengaluru was a natural next step. We wanted to be closer to our customers and respond to their requirements faster. This facility gives us that opportunity while bringing the same technology, expertise and quality that Shilp has built its reputation on over the years. This expansion strengthens our foundation for continued growth in the region.”

The expansion marks the next chapter in Shilp Gravures’ three-decade journey, as the company continues to invest in manufacturing, technology and capabilities to support its future growth.

About Shilp Gravures Limited:

Shilp Gravures Limited brings over three decades of experience in gravure technology and printing solutions, serving converters and manufacturers across flexible packaging, paper and board, labels, foils, decorative printing, specialty coatings and other industrial applications.
